

## Air cleaner element

## WARNING

Do not operate the engine with the air cleaner element removed. The air cleaner element not only filters dusts at the air inlet passage of the engine but also filters the air. If the air cleaner element is not installed when the engine functions, you could be harmed.

## CAUTION

When replacing the air cleaner element, use a genuine HILTI® air cleaner element. If it is not used, there is the possibility of causing a negative effect to the engine.

The air cleaner element functions as a filter screen. When the element is perforated or damaged, engine wear will be increased and engine life shortened.

The air cleaner element is a dry type. It is unnecessary to clean or wash the element.

## ■ Replacing the air cleaner element

Replace the air cleaner element according to the maintenance schedule in the "Service and Maintenance Manual". Under extremely dusty conditions, replace it more frequently. It is recommended that you always use genuine HILTI® parts.
