**Fundamentals of Gnostic Education** Samael Aun Weor, 2025-02-01 The fundamental education is the science of the consciousness that allows us to discover our relationship with human beings nature and all things The Greek word gnosis means knowledge The higher meaning of gnosis is knowledge of facts acquired from personal experience Gnosis is genuine knowledge of the truth To understand truth one must experience it The greatest human beings in every field philosophy science art and religion did not imitate memorize or remain limited by popular ideas instead they sought gnosis to know the facts for themselves and in finding the facts they changed the world for the better Unfortunately such people are rare The problems afflicting individuals and society today have a simple root cause we have not yet learned how to think Instead people today are taught to memorize and imitate Schools teachers and parents today emphasize what we should think rather than teaching how to think question and analyze so we can recognize the facts deal with them intelligently and experience the truth for ourselves What is the value of accumulating much knowledge within our minds if we continue to be confused What is the value of technical and industrial skills if we use them for the destruction of our fellows It is worthless to receive instruction to attend classes to study if in the process of our daily living we are miserably destroying one another Indeed the true objective of a fundamental education must be to create true men and women who because of their psychological integration are cognizant and intelligent When our consciousness is liberated from the conditioning and restrictions imposed upon it by imitation bad habits defects vices and mistaken beliefs then we can see and experience the truth for ourselves In this way we no longer need to believe anything or follow anyone but are free to express our fundamental nature and realize our full potential This book guides us towards that experience that gnosis We need the union of superior logic and tremendous love heart and mind balanced by conscious awareness of facts This psychological equilibrium empowers us to alter the painful conditions that we suffer within Therefore we need a gnostic education an education based on personal experience of the truth
