Version 3.4 updated January 17, 2025. This book introduces you to the Mac's command line environment, teaching you how to use the Terminal utility to accomplish useful, interesting tasks that are either difficult or impossible to do in the graphical interface. If you've ever thought you should learn to use the Unix command line that underlies macOS or felt at sea when typing commands into Terminal, Joe Kissell is here to help. With this book, you'll become comfortable working on the Mac's command line, starting with the fundamentals and adding more advanced topics as your knowledge increases. Joe includes 67 real-life recipes for tasks that are best done from the command line, as well as directions for working with permissions, carrying out grep-based searches, creating shell scripts, and installing Unix software. The book begins by teaching you these core concepts: The differences among Unix, a command line, a shell, and Terminal. Exactly how commands, arguments, and flags work. The basics of Terminal's interface and how to customize it. Next, it's on to the command line, where you'll learn how to navigate your Mac's directory structure, basic file management, creating, copying, moving, renaming, opening, viewing, and deleting files, creating symbolic links, the types of command line programs, how to start and stop a command line program, how to edit a text file in nano, how to customize your prompt and other shell defaults, the importance of your PATH and how to change it if you need to, how to get help. Joe goes way beyond telling you to read the man pages. You'll extend your skills as you discover how to create basic shell scripts to automate repetitive tasks, make shell scripts that have variables, user input, conditional statements, loops, and math. See which programs are running and what system resources they're consuming. Quit programs that refuse to quit normally. Enable the command line to interact with the Finder. Control another Mac via its command line with ssh. Understand and change an item's permissions, owner, and group. Run commands as the root user using sudo. Handle output with pipe or redirect or **Juicing Recipes; 3 Day Detox for Weight Loss** James DeLong, Melissa Bell, 2015 Juicing Recipes for Detox and Weight loss.
