Fill in the missing spaces with the words from the liquid below:

Solids, Liquids and Gases

All materials are either solid, liquid or gas.

A brick, chocolate and glass are all solids.

Solids can be held. They have a definite shape.

The molecules that make up a solid are packed tightly together.

Water, milk and syrup are all liquids. Liquids can be poured and take the shape of the container they are in.

Steam, helium and carbon dioxide are all gases. Gases are mostly invisible. They will fill empty spaces. Steam is a gas, water is a liquid and ice is a solid.
