Protest Music in France Barbara Lebrun, 2016-04-08 Barbara Lebrun traces the evolution

of protest music in France since 1981 exploring the contradictions that emerge when artists who take their musical production and political commitment seriously cross over to the mainstream becoming profitable and consensual Contestation is understood as a discourse shaped by the assumptions and practices of artists producers the media and audiences for whom it makes sense to reject politically reactionary ideas and the dominant taste for commercial pop Placing music in its economic historical and ideological context however reveals the fragility and instability of these oppositions The book firstly concentrates on music production in France the relationships between independent labels major companies and the state s cultural policies This section provides the material background for understanding the development of rock alternatif France s self styled subversive genre of the 1980s and explains the specificity of a protest music culture in late twentieth century France in relation to the genre s tradition in the West The second part looks at representations of a protest identity in relation to discourses of national identity focusing on two 1990s sub genres The first chanson n o r aliste contests modernity through the use of acoustic instruments but its nostalgic protest raises questions about the artists real engagement with the present The second rock m tis borrows from North African and Latino rhythms and challenges the neutral Frenchness of the Republic while advocating multiculturalism in problematic ways A discussion of Manu Chao s career a French artist who has achieved success abroad also allows an exploration of the relationship between transnationalism and anti globalization politics Finally the book examines the audiences of French protest music and considers festivals as places of non mainstream identity negotiation Based on first hand interviews this section highlights the vocabulary of emotions that audiences use to make sense of an alternative performance unveiling the contradictions that underpin their self definition as participants in a protest culture The book contributes to debates on the cultural production of resistance and the representation of post colonial identities uncovering the social constructedness of the discourse of protest in France It pays attention to its nation specific character while offering a wider reflection on the fluidity of subversive identities with potential applications across a range of Western music practices

Les tentatives de banalisation de l'extrême droite en Europe Nicolas Guillet, Nada Afiouni, 2019-05-13 Cette analyse des évolutions contemporaines de l'extrême droite scrute les précedents historiques et les divers ressorts de son développement tels que l'utilisation des techniques du discours et du marketing ou l'existence de causes sociales objectives Cet ouvrage offre un regard et une analyse pluridisciplinaire sur le phénomène polymorphe dit de la banalisation de l'extrême droite Découvrez une analyse pluridisciplinaire inédite centrée sur la France la Grande Bretagne et la Suisse et composée des contributions d'historiens de politistes de linguistes de civilisationnistes de sociologues et de juristes EXTRAIT Avancer l'idée de tentatives de banalisation laisse néanmoins entendre que le processus est difficile et périlleux qu'il est long et mal assuré C'est pourquoi la banalisation de l'extrême droite ne saurait se mesurer uniquement travers la progression lectorale durable d'un mouvement politique qui oscille entre adhésion et contestation Elle doit également être examinée sous l'angle de ses mécanismes car le

processus de banalisation est tout la fois plurivoque et dialectique Plurivoque la banalisation affecte l'extrême droite d'un point de vue la fois formel et substantiel Formellement elle cherche modifier son image publique changeant de nom de logo de chef et de cadres afin de laisser de côté les attributs du passé Elle modifie galement son discours public l'atténue l'euphémise se fait porte parole du bon sens populaire emprunte des références aux autres familles politiques tout en se distillant des idées propres Elle revendique parfois aussi un positionnement politique original l'instar du Front national qui se dit ni de gauche ni de droite signifiant implicitement qu'il ne saurait relever de l'extrême droite Substantiellement l'extrême droite devient une force politique propre et contribue structurer le jeu politique elle marque son ancrage dans la société largit son vivier de cadres politiques parce qu'adhérer ses groupements n'est plus vraiment honteux Il s'agirait donc en substance d'une forme d'institutionnalisation les partis d'extrême droite quittant la sphère uniquement protestataire ou tribunicienne pour tenter d'accéder au pouvoir politique
