This section addresses international relations in Europe from 1919 to 1945 with initial emphasis on the Paris peace treaties: their aims, impact and the problems relating to their enforcement. The section covers attempts to promote collective security and international cooperation through the League of Nations and multilateral agreements (outside the League mechanism), arms reduction and the pursuit of foreign policy goals without resort to violence. This section also addresses the individual foreign policies of Italy, Germany, France, Britain and Russia/Soviet Union, looking at the aims, issues and success of each one. It concludes with a study of the Second World War, looking particularly at the impact of the war and the reasons for Axis defeat and Allied victory.

The Christian Left Anthony A. J. Williams, 2022-04-13 Christianity is often assumed to be pro capitalist and socially conservative in short necessarily aligned with the political Right But can this be straightforwardly true of a religion founded by a figure who drew his early followers from among the poor and downtrodden and spoke against the accumulation of earthly riches In this book Anthony A J Williams shows that this assumption is far from correct by giving an introductory overview of a tradition of socialist and radical Christianity that can be traced back to the communal ownership described in the Acts of the Apostles Focusing on modern Christian Left movements from Christian Socialism and the social gospel to liberation theology and red letter Christianity Williams examines the major challenges faced by the Christian Left today both from within Christianity itself and from the secular Left Does the Bible and Christian theology really support collectivism and universal equality Can Christian radicalism remain viable in an age of identity politics This book is essential reading for anyone interested in the relationship between religion and politics

The China-Pakistan Axis Andrew Small, 2014-01-15 The Beijing Islamabad axis plays a central role in Asia's geopolitics from India's rise to the prospects for a post American Afghanistan from the threat of nuclear terrorism to the continent's new map of mines ports and pipelines China is Pakistan's great economic hope and its most trusted military partner Pakistan is the battleground for China's encounters with Islamic militancy and the heart of its efforts to counter balance the emerging US India partnership For decades each country has been the other's only all weather friend Yet the relationship is still little understood The wildest claims about it are widely believed while many of its most dramatic developments are hidden from the public eye This book sets out the recent history of Sino Pakistani ties and their ramifications for the West for India for Afghanistan and for Asia as a whole It tells the stories behind some of its most sensitive aspects including Beijing's support for Pakistan's nuclear program China's dealings with the Taliban and the Chinese military's planning for crises in Pakistan It describes a relationship increasingly shaped by Pakistan's internal strife and the dilemmas China faces between the need for regional stability and the imperative for strategic competition with India and the USA

Cycle of Fear Leon Goldsmith, 2015-05-15 In early 2011 an elderly Alawite shaykh lamented the long history of oppression and aggression

against his people Against such collective memories the Syrian uprising was viewed by many Alawites and observers as a revanchist Sunni Muslim movement and the gravest threat yet to the unorthodox Shi a sub sect This explained why the Alawites largely remained loyal to the Ba athist regime of Bashar al Asad But was Alawite history really a constant tale of oppression and was the Syrian uprising of 2011 really an existential threat to the Alawites This book surveys Alawite history from the sect s inception in Abbasid Iraq up to the start of the uprising in 2011 The book shows how Alawite identity and political behaviour have been shaped by a cycle of insecurity that has prevented the group from achieving either genuine social integration or long term security Rather than being the gravest threat yet to the sect the Syrian uprising in the context of the Arab Spring was quite possibly a historic opportunity for the Alawites to finally break free from their cycle of fear

Microhistories of the Holocaust Claire Zalc,Tal Bruttman,2016-12-01 How does scale affect our understanding of the Holocaust In the vastness of its implementation and the sheer amount of death and suffering it produced the genocide of Europe s Jews presents special challenges for historians who have responded with work ranging in scope from the world historical to the intimate In particular recent scholarship has demonstrated a willingness to study the Holocaust at scales as focused as a single neighborhood family or perpetrator This volume brings together an international cast of scholars to reflect on the ongoing microhistorical turn in Holocaust studies assessing its historiographical pitfalls as well as the distinctive opportunities it affords researchers

The Colorblind Screen Sarah Nilsen, Sarah E. Turner, 2014-04-04 In *The Colorblind Screen* the contributors examine television's role as the major discursive medium in the articulation and contestation of racialized identities in the United States While the dominant mode of televisual racialization has shifted to a colorblind ideology that foregrounds racial differences in order to celebrate multicultural assimilation the volume investigates how this practice denies the significant social economic and political realities and inequalities that continue to define race relations today Focusing on such iconic figures as President Obama LeBron James and Oprah Winfrey many chapters examine the ways in which race is read by television audiences and fans Other essays focus on how visual constructions of race in dramas like *24* *Sleeper Cell* and *The Wanted* continue to conflate Arab and Muslim identities in post 9 11 television The volume offers an important intervention in the study of the televisual representation of race engaging with multiple aspects of the mythologies developing around notions of a post racial America and the duplicitous discursive rationale offered by the ideology of colorblindness Publisher's website

US-Pakistan Relations Talat Farooq, 2016-07-01 US foreign policy making from the end of the Cold War to after 2001 is crucial to understanding the years of strong US engagement with Pakistan that would follow 9 11 This book explains Pakistan's strategic choices in the 1990s by examining the role of the United States in the shaping of Islamabad's security goals Drawing upon a diverse range of oral history interviews as well as available written sources the book explains the American contribution to Pakistani security objectives during the presidency of Bill Clinton 1993 2001 The author investigates and explains the dynamics which drove Islamabad's pursuit of nuclear weapons its support for the Taliban and its approach towards the indigenous uprising in Indian Kashmir She argues that Clinton's foreign policy contributed to the hardening of Islamabad's security perspectives creating space for the Pakistani military establishment to pursue its regional security goals The book also discusses the argument that US Pakistan relations during this period were driven by a Cold War mindset causing a fissure between US global and Pakistan's regional security goals The Pakistani military and civilian leadership utilized these divergent and convergent trends to protect Islamabad's India centric strategic interests The book addresses a gap in the relevant literature and moves beyond the available mono causal explanations often distorted by a mixture of intellectual obfuscation and political rhetoric It adds a Pakistani perspective and is a valuable contribution to the study of US Pakistan relations

Sunni City Tine Gade, 2022-11-24 Tripoli Lebanon's Sunni City is often presented as an Islamist or

even Jihadi city However this misleading label conceals a much deeper history of resistance and collaboration with the state and the wider region Based on more than a decade of fieldwork and using a broad array of primary sources Tine Gade analyses the modern history of Tripoli exploring the city's contentious politics its fluid political identity and the relations between Islamist and sectarian groups Offering an alternative explanation for Tripoli's decades of political troubles rather than emphasizing Islamic radicalism as the principal explanation she argues that it is Lebanese clientelism and the decay of the state that produced the rise of violent Islamist movements in Tripoli By providing a corrective to previous assumptions this book not only expands our understanding of Lebanese politics but of the wider religious and political dynamics in the Middle East

Bihar and Mithila J. Albert Rorabacher, 2016-09-13 The world has become obsessed with the Western notions of progress development and globalization the latter a form of human and economic homogenization These processes through the aegis of the United Nations are comparatively monitored Those nations deemed to be lagging behind are then provided with foreign aid and developmental assistance For nearly seventy years India has sought its place in this global endeavour yet even today abject poverty and backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India's problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co-opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates
