Qureshi,2023-06-16 In 1972 Swedish Prime Minister Olof Palme s fierce condemnation of the Christmas Bombings of the North Vietnamese cities of Hanoi and Haiphong led to a breakdown in diplomatic relations at the highest level between Sweden and the United States The author argues that Sweden s official position of neutrality allowed its Prime Minister greater independence of action on the international stage Palme opposed the American military intervention in Southeast Asia for its violation of Vietnamese self determination Superpower aggression against one small country threatened all others including Palme s own At the same time the diplomatic freeze did not substantially damage Swedish American relations In spite of the tension with the Nixon White House Stockholm and its embassy in Washington maintained excellent relations with Congress with many ordinary Americans and even with Nixon s own State Department

Architecture and Retrenchment Helena Mattsson, 2023-01-26 Shortlisted for the Architects Sweden Critic's Award 2023 Scholars in architectural and urban history have over the last decade been trying to come to terms with architecture's neoliberal turn and its various impacts from municipal policy to the artistic imagination However most scholarship has focussed on generalizations with very little work to date focussing on specific cases Architecture and Retrenchment brings one such case to the fore investigating the relation between architecture and the Swedish Model of the welfare state It tracks the response of architecture to the gradual retrenchment and ultimate dismantling of the Swedish welfare state which was in its heyday world famous for its integration of architecture and the built environment into the welfare system Ultimately neoliberal economics prevailed yet this book reveals how new architectural strategies and techniques were developed in order to protect the agency of architecture in the newly reorganised society of the 1980s and 1990s Through eight in depth case studies the book situates the often abstract generalised discourse of neoliberalism and privatisation in specific architectural sites and provides an original interpretation of how architecture space aesthetics and politics converged at the end of the twentieth century
