Northern Man The Victor:

A Man for All Oceans Stan Grayson, 2017-05-16 In June 1898 three years and two months after departing Boston in his aged oyster sloop *Spray* Captain Joshua Slocum made land fall in New England and became the first person ever to sail alone around the world The voyage capped a lifetime of adventure for the indomitable Slocum who had advanced from seaman to captain during the challenging final years of commercial sail surviving hurricanes mutinies shipwreck and the death at sea of his beloved first wife Virginia Sailing Alone Around the World Slocum's book about his circumnavigation is a seafaring classic unmatched for adventure and literary verve and has never been out of print since its publication in 1900 Yet despite several biographies over the decades Slocum the man has remained unknowable to his legions of admirers the facts of his life and career as elusive as a ship on a fogbound sea Here is the real story of Slocum's Nova Scotia childhood his seafaring career and how he became an American citizen Grayson gives ample evidence of Slocum's uncanny genius as a navigator while also noting the occasional role that good luck played in his voyages including his odyssey from Brazil to the United States in the self designed and built 35 foot *Liberdade* And Grayson brings a sailor's perspective to Slocum's solo circumnavigation and mysterious disappearance at sea A fascinating appendix compares *Sailing Alone Around the World* with Thoreau's *Walden* and shows that Slocum's simple lifestyle and self sufficiency prefigured today's emphases on the environment and living responsibly Previously unpublished photographs bring Slocum's world to life and detailed maps trace the adventures of a sailor who knew the world like the back of his hand This biography reads like an adventure narrative and will serve as the standard work on Joshua Slocum for years to come

The Romance of Reunion Nina Silber, 2000-11-09 The reconciliation of North and South following the Civil War depended as much on cultural imagination as on the politics of Reconstruction Drawing on a wide range of sources Nina Silber documents the transformation from hostile sectionalism to sentimental reunion rhetoric Northern culture created a notion of reconciliation that romanticized and feminized southern society In tourist accounts novels minstrel shows and popular magazines northerners contributed to a mythic and nostalgic picture of the South that served to counter their anxieties regarding the breakdown of class and gender roles in Gilded Age America Indeed for many Yankees the ultimate symbol of the reunion process and one that served to reinforce Victorian values as well as northern hegemony was the marriage of a northern man and a southern woman Southern men also were represented as affirming traditional gender roles As northern men wrestled with their nation's increasingly global and aggressive foreign policy the military virtues extolled in Confederate legend became more admired than reviled By the 1890s concludes Silber northern whites had accepted not only a newly resplendent image of Dixie but also a sentimentalized view of postwar reunion

The Dial Francis Fisher Browne, Waldo Ralph Browne, Scofield Thayer, 1907 *Northern Men with Southern Loyalties* Michael Todd Landis, 2014-10-29 Michael Todd Landis forcefully contends that a full understanding of the Civil War and its causes is impossible without a careful examination of Northern Democrats and their proslavery sentiments and activities

Northern Ireland after the troubles Colin Coulter, Michael Murray, 2013-01-18 In the last generation Northern Ireland has undergone a tortuous yet remarkable process of social and political change This collection of essays aims to capture the complex and shifting realities of a society in the process of transition from war to peace The book brings together commentators from a range of academic backgrounds and political perspectives As well as focusing upon those political divisions and disputes that are most readily associated with Northern Ireland it provides a rather broader focus than is conventionally found in books on the region It examines the cultural identities and cultural practices that are essential to the formation and understanding of Northern Irish society but are neglected in academic analyses of the six counties While the contributors often approach issues from rather different angles they share a common conviction of the need to challenge the self serving simplifications and choreographed optimism that frequently define both official discourse and media commentary on Northern Ireland Taken together the essays offer a comprehensive and critical account of a troubled society in the throes of change
