manual appropriate for all Norton models that utilized this series of 500 600 650 and 750cc engines through the 1970 model year As expected from a factory publication this manual includes complete technical data service and maintenance information and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components making it an invaluable resource for collectors and restorers of these classic Norton motorcycles There are separate sections that deal with the repair and overhaul procedures for the engine transmission wheels and brakes front forks frame and carburetor plus an exhaustive Lucas electrical service section that includes test procedures for all the electronic components With 74 illustrations to help explain the procedures this is a must have reference for any Norton enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to making a purchase of one of these classic motorcycles Out of print and unavailable for many years this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all Norton enthusiasts worldwide

**NORTON 1960-1970 LIGHTWEIGHT AND HEAVYWEIGHT TWIN CYLINDER WORKSHOP MANUAL 250cc TO 750cc. INCLUDING THE 1968-1970 COMMANDO** Floyd Clymer, 2021-04-16 140 pages and more than 140 illustrations and charts size 8 25 x 10 75 inches The original Norton factory Twin Cylinder workshop manual contained maintenance and repair data for both the lightweight and heavyweight Norton twins manufactured between 1960 and 1968 including the 750cc Atlas model which was in production from 1962 1968 As many of the mechanical attributes from the Atlas series were carried over into the early Norton Commando models we felt that the original Twin Cylinder manual was somewhat lacking as it did not include repair data for the early Commando that evolved from the Atlas Consequently we have updated and expanded this Floyd Clymer edition of the original Twin Cylinder manual to include the OEM Norton manual part no 06 3062 for the 1968 1970 Commando 750cc models that were fitted with the Atlas style exhaust and external rev counter drive to the timing cover Beginning with engine no 126125 February 1968 and the early camshaft driven contact breaker models from engine no 131257 March 1969 While there is some duplication between the Atlas and Commando repair information we felt that the Commando manual should be included in its entirety in order to complete the coverage of the original Twin Cylinder manual from 1960 through the 1970 model year It should also be noted that this manual includes significant maintenance and repair information for the AMC Norton Matchless G15 hybrids that were manufactured from 1963 1967 engine numbers 107388 to 124371 **IMPORTANT NOTE** Many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and published complete with greasy pages and thumbprints and as such are deceptively described as pre owned In addition they are often advertised for the incorrect series and or model years of motorcycles However VelocePress com has been publishing licensed reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality
