Claim:

There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Marketing for Scientists Marc J. Kushner, 2012-06-22 It's a tough time to be a scientist universities are shuttering science departments federal funding agencies are facing flat budgets and many newspapers have dropped their science sections altogether But according to Marc Kushner this antiscience climate doesn't have to equal a career death knell it just means scientists have to be savvier about promoting their work and themselves In *Marketing for Scientists* he provides clear detailed advice about how to land a good job win funding and shape the public debate As an astrophysicist at NASA Kushner knows that marketing can seem like a superficial distraction whether your daily work is searching for new planets or seeking a cure for cancer In fact he argues it's a critical component of the modern scientific endeavor not only advancing personal careers but also society's knowledge Kushner approaches marketing as a science in itself He translates theories about human interaction and sense of self into methods for building relationships one of the most critical skills in any profession And he explains how to brand yourself effectively how to get articles published give compelling presentations use social media like Facebook and Twitter and impress potential employers and funders Like any good scientist Kushner bases his conclusions on years of study and experimentation In *Marketing for Scientists* he distills the strategies needed to
