*Do You Believe in Rock and Roll?* Raymond I. Schuck, Ray Schuck, 2012-10-10

Since its release in 1971, Don McLean's song "American Pie" has become an indelible part of U.S. culture. It has sparked countless debates about the references within the lyrics, been celebrated as a chronicle of American life from the late 1950s through the early 1970s, and has become iconic itself as it has been remade, parodied, and referenced within numerous texts and forums. This volume offers a set of new essays that focus on the cultural and historical significance of the song, representing a variety of perspectives and fields of study. The essays address such topics as historical and literary interpretations of the song's lyrics, its musical qualities, the commentary the song offers on rock and roll history, the continuing significance of the song, and the ways in which the song has been used by various writers and artists.

**Anthropologists in Arms** George R. Lucas Jr.,2009-10-15 Anthropologists in Arms looks at the moral and ethical debates surrounding the recent development of military anthropology particularly the practice of embedding anthropologists with combat troops in Iraq and Afghanistan Lucas traces the troubled history of social scientists collaborating with national military security and intelligence organizations and shows how these complex and

frequently misunderstood historical concerns contribute to the contemporary moral controversy He gives special attention to the Human Terrain Systems project developed by the U S Army under the direction of General David Petraeus Although this project has been criticized as unethical by academic anthropologists in the U S and the U K Lucas shows that the moral status of that program is much more ambiguous than these blanket criticisms would suggest Anthropologists in Arms concludes with a call for a thorough review of HTS itself and suggests alternative strategies for providing anthropological knowledge to military forces engaged in irregular warfare knowledge that might in turn help military forces to ameliorate the suffering imposed on noncombatants while respecting the privacy security and human rights of indigenous populations
