The Dynamics of Changing Higher Education in the Global South Busani Mpofu, Sabelo Ndlovu-Gatsheni, 2020-06-29 Today there are generally universities in Africa rather

than African universities The legitimacy of the university in Africa is under serious questions now because of its complicity in racism patriarchy sexism colonialism capitalism genocide epistemicide linguicide culturecide and alienation In other words the university in Africa as we know it today is elitist and exclusionary Therefore rethinking the idea of the university is fundamental to overcoming its current deficiencies in the Global South This volume bringing together a number of national case studies and macro analyses on the dynamics of changing higher education in the Global South gestures towards the desired imagined decolonial African university which should be a site of multilingualism where African indigenous languages cosmologies and ontologies become a central part of its identity and soul intolerant of epistemicides linguicides and cultural imperialism but a site of cognitive and social justice that fully embraces the idea that all human beings are born into valid useful relevant and legitimate knowledge systems

Open Access to Knowledge in Nigeria Kunle Ola, 2018-10-17 This book provides an analysis of the legal and policy dimensions of open access to research education and public sector information with a focus on Nigeria. Kunle shows how open access has evolved across the world and how such initiatives could be implemented in Nigeria and other countries in the developing world. The author argues for a platform where Nigerians are able to freely connect to the global library through the open access dual platforms of self archiving and open access publishing thereby providing access to knowledge. The importance of connecting local works to the global library to increase visibility and impact of such works is also underscored. This book furthers our understanding of open educational resources as alternative avenues to accessing education and seeks to foster citizenry participation, good governance, accountability, democratic values and spur creativity and innovation through open governance and access to public sector information. Providing a framework for open access in developing countries, *Open Access to Knowledge in Nigeria* is an important read for scholars interested in knowledge production in Africa, development of the knowledge economy and the open access and Access to Knowledge movements.
