Herzog, Bénédicte Zimmermann, 2022-12-30 What do human beings do when they work how is work organized and what are its multidimensional economic social political biographical ecological effects We cannot answer these questions without drawing on the numerous categories that we use to describe work such as skilled or unskilled work domestic work or wage labor gig work or platform work Such categories are not merely theoretical labels as they also have practical effects But where do these categories come from what are their histories how do they differ between countries and how are they evolving *Shifting Categories of Work* asks these questions illuminating the many ways in which our societies categorize work Written by sociologists philosophers historians and anthropologists as well as management and legal scholars the contributions in this volume contrast different cultural practices and frameworks of categorizing work across different countries Organized around the three axes of un organized work in visible work and in valuable work this book shows how ways of categorizing work express but also recreate lines of privilege and disadvantage challenging our preconceived notions of what work is and what it could be as it invites us to rethink the categories we use for understanding the work we do and hence to some extent ourselves Nouveau manuel complet de perspective du dessinateur et du peintre par A.-D.
