

MARK SCHEME for the October/November 2013 series

7115 BUSINESS STUDIES

7115/12

Paper 1 (Short Answer/Structured Response),
maximum raw mark 100

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

November 2013 Math Studies Mark Scheme

Souza**

November 2013 Math Studies Mark Scheme:

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Issues in Artificial Intelligence, Robotics and Machine Learning: 2013 Edition, 2013-05-01 Issues in Artificial Intelligence, Robotics and Machine Learning 2013 Edition is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Expert Systems. The editors have built Issues in Artificial Intelligence, Robotics and Machine Learning 2013 Edition on the vast information databases of ScholarlyNews. You can expect the information about Expert Systems in this book to be deeper than what you can access anywhere else as well as consistently reliable, authoritative, informed and relevant. The content of Issues in Artificial Intelligence, Robotics and Machine Learning 2013 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions and companies. All of the content is from peer-reviewed sources and all of it is written, assembled and edited by the editors at ScholarlyEditions and available exclusively from us. You now have a source you can cite with authority, confidence and credibility. More information is available at <http://www.ScholarlyEditions.com>.

Issues in Acoustic and Ultrasound Technology: 2013 Edition, 2013-05-01 Issues in Acoustic and Ultrasound Technology 2013 Edition is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Applied Acoustics. The Perfect Bet Adam Kucharski, 2016-02-23 An elegant and amusing account of how gambling has been reshaped by the application of science and revealed the truth behind a lucky bet. Wall Street Journal. For the past 500 years gamblers led by mathematicians and scientists have been trying to figure out how to pull the rug out from under Lady Luck. In *The Perfect Bet*, mathematician and award-winning writer Adam Kucharski tells the astonishing story of how the experts have succeeded revolutionizing mathematics and science in the process. The house can seem unbeatable. Kucharski shows us just why it isn't. Even better, he demonstrates how the search for the perfect bet has

been crucial for the scientific pursuit of a better world

Sustainability of the Theories Developed by Mathematical Finance and Mathematical Economics with Applications Wing-Keung Wong,2020-12-15
