College Belonging Lisa M. Nunn, 2021-02-12 *College Belonging* reveals how colleges and universities' efforts to foster a sense of belonging in their students are misguided. Colleges bombard new students with the message to get out there and find your place by joining student organizations, sports teams, clubs, and the like. Nunn shows that this reflects a flawed understanding of what belonging is and how it works. Drawing on the sociological theories of Emile Durkheim, *College Belonging* shows that belonging is something that members of a community offer to each other. It is something that must be given like a gift. Individuals cannot simply walk up to a group or community and demand belonging. That's not how it works. The group must extend a sense of belonging to each and every member. It happens by making a person feel welcome, to feel that their presence matters to the group, that they would be missed if they were gone. This critical insight helps us understand why colleges push for students simply to get out there; it does not always work.

Handbook of Education Politics and Policy Bruce S. Cooper, James G. Cibulka, Lance D. Fusarelli, 2014-11-10 This revised edition of the *Handbook of Education Politics and Policy* presents the latest research and theory on the most important topics within the field of the politics of education. Well-known scholars in the fields of school leadership, politics, policy, law, finance, and educational reform examine the institutional backdrop to our educational system, the political behaviors and cultural influences operating within schools, and the ideological and philosophical positions that frame discussions of educational equity and reform. In its second edition, this comprehensive handbook has been updated to capture recent developments in the politics of education, including Race to the Top and the Common Core State Standards, and to address the changing role politics play in shaping and influencing school policy and reform. Detailed discussions of key topics touch upon important themes in educational politics, helping leaders understand issues of innovation, teacher evaluation, tensions between state and federal lawmakers over new reforms and testing, and how to increase student achievement. Chapter authors also provide suggestions for improving the political behaviors of key educational groups and individuals, with the hope that an understanding of political goals, governance processes, and policy outcomes may contribute to ongoing school reform.
