Winter Of Magics Return Pamela F Service:

Tomorrow's Magic Pamela F. Service, 2009-04-23 It's 500 years after the nuclear holocaust that devastated the earth's population and left the few survivors dealing with unending winter. At their remote British boarding school Wellington Jones and Heather McKenna have a lot in common. Both are misfits trying to avoid attention and both are fascinated by Earl, a tall, calm older boy with no recollection of his past but a remarkable knack for showing up when he is needed most. When a blow to the head brings Earl's memory back, he claims that he is actually Merlin, a 2000-year-old wizard. Originally published in two volumes in the mid 1980s, Pamela F. Service's creative futuristic spin on the Camelot legend will appeal to Arthurian purists and fantasy lovers alike.

King Arthur's Modern Return Debra N. Mancoff, 2014-04-23 The Arthurian legend closes with a promise: On a distant day when his country calls, the king will return. His lost realm will be regained and his shattered dream of an ideal world will at last be realized. This collection of original essays explores the issue of return in the modern Arthurian legend. With an Introduction by noted scholar Raymond H. Thompson and 13 essays by authors from the fields of literature, art, history, film, history, and folklore, this collection reveals the flexibility of the legend. Just as the modern legend takes the form current to its generation, the myth of return generates a new legend with each telling. As these authors show, return can come in the form of a noble king or a Caribbean immigrant with the mystery of an art theft or a dying boy's dream.

Merlin Peter H. Goodrich, 2004-06 First Published in 2003, Routledge is an imprint of Taylor & Francis, an information company.

Children and Cultural Memory in Texts of Childhood Heather Snell, Lorna Hutchison, 2013-11-07 The essays in this collection address the relationship between children and cultural memory in texts both for and about young people. The collection overall is concerned with how cultural memory is shaped, contested, forgotten, recovered, and re-circulated, sometimes in opposition to dominant national narratives and often for the benefit of young readers who are assumed not to possess any prior cultural memory. From the innovative development of school libraries in the 1920s to the role of utopianism in fixing cultural memory for teen readers, it provides a critical look into children and ideologies of childhood as they are represented in a broad spectrum of texts including film, poetry, literature, and architecture from Canada, the United States, Japan, Germany, Britain, India, and Spain. These cultural forms collaborate to shape ideas and values in turn contributing to dominant discourses about national and global citizenship. The essays included in the collection imply that childhood is an oft-imagined idealist construction based in large part on participation, identity, and perception; childhood is invisible and tangible, exciting and intriguing, and at times elusive even as cultural and literary artifacts recreate it. **Children and Cultural Memory in Texts of Childhood** is a valuable resource for scholars of children's literature and culture, readers interested in childhood and ideology, and those working in the fields of diaspora and postcolonial studies.

Late Cold War Literature and Culture Daniel Cordle, 2017-03-03 This book analyses the 1980s as a nuclear decade focusing on British and United States fiction. Ranging across genres including literary fiction, science fiction, post-apocalyptic fiction, graphic novels, children's and

young adult literature thrillers and horror it shows how pressing nuclear issues were particularly the possibility of nuclear war and how deeply they penetrated the culture It is innovative for its discussion of a nuclear transatlantic placing British and American texts in dialogue with one another for its identification of a vibrant young adult fiction that resonates with more conventionally studied literatures of the period and for its analysis of a politics of vulnerability animating nuclear debates Placing nuclear literature in social and historical contexts it shows how novels and short stories responded not only to nuclear fears but also crystallised contemporary debates about issues of gender the environment society and the economy
