**Actor-Network Theory at the Movies** Björn Sonnenberg-Schrank, 2020-01-29 This book is one of the first to apply the theoretical tools proposed by French philosopher Bruno Latour to film studies Through the example of the Hollywood Teen Film and with a particular focus on Actor Network

Theory ANT the book delineates how Teen Film has established itself as one of Hollywood's most consistent and dynamic genres. While many productions may recycle formulaic patterns, there is also a proliferation of cinematic coming-of-age narratives that are aesthetically and politically progressive, experimental, and complex. The case studies develop a Latourian film semiotics as a flexible analytical approach which raises new questions not only about the history, types, and tropes of teen films but also about their aesthetics, mediality, and composition. Through an exploration of a wide and diverse range of examples from the past decade, including films by female and African American directors, urban and rural perspectives, and non-heteronormative sexualities, Actor Network Theory at the Movies demonstrates how the classic Teen Film canon has been regurgitated, expanded, and renewed.

**Grotesque Progeny** Mark Heimermann, 2024-11-20

In contemporary Western society, childhood appears more protected than ever to the casual onlooker. Yet we are increasingly fascinated by narratives in which children are depicted as unsettling beings, both dangerous and endangered, sometimes chaotic or even evil. In *Grotesque Progeny: The Commodification of Dangerous and Endangered Children*, author Mark Heimermann argues that these representations reflect cultural anxiety regarding a shifting conception of youths, from emotional assets to economic ones. In the early to mid-twentieth century, children who had previously been viewed in part as economic investments were largely moved out of the work force. For decades, children were instead valued primarily as emotional assets. However, the rise of neoliberal capitalism in the 1970s and 1980s, and its eventual proliferation throughout our politics and our lives, has led to the widespread commodification of social arenas previously kept separate from the capitalist quest for profit. Not even children have escaped being objectified and dehumanized in this manner. Heimermann examines a variety of texts that center on children and adolescents who are marked as different from the adult characters and consequently viewed as grotesque. Chapters cover Jeff Lemire's *Sweet Tooth*, M. R. Carey's *The Girl with All the Gifts*, Katherine Dunn's *Geek Love*, Richard Starkings's *Elephantmen*, Kazuo Ishiguro's *Never Let Me Go*, and more. Because the young characters are not viewed as equal members of society, they must either strike back at those who commodify them or risk facing a lifetime of dehumanization. *Grotesque Progeny* argues that these monstrous depictions reveal societal unease over shortsighted economic and political thinking, the exploitation of children, and the changing nature of childhood. The book addresses a growing concern over which spaces ought to be excluded or removed from the harsh valuations of neoliberalism.
