

Brake Light Kill Switch

Purpose: Planning to rob a bank? You'll need to drive away inconspicuously. This circuit uses a relay to cut the power to your brake lights at the flip of a switch.

1. Locate the brake lamp's common power wires. "Common" means they are always connected. Some cars use a common ground wire, while others may use a common positive wire.
 2. Cut the wires, and run one end to pin 30, and the other to pin 87a.
- Pin 87 is NOT used.

Wiring Brake Light Switch Passat
