Naranjo,2010-06-16 Bemisia tabaci Gennadius has distinguished itself from the more than 1 000 whitefly species in the world by its adaptability persistence and potential to damage a wide range of agricultural and horticultural crops in all six of the world s inhabited continents B tabaci inflicts plant damage through direct feeding inducement of plant disorders vectoring of plant viruses and excretion of honeydew This book collates multiple aspects of the pest ranging from basic to applied science and molecular to landscape levels of investigation Experts in multiple disciplines provide broad but detailed summaries and discussion of taxonomy genetics anatomy morphology physiology behavior ecology symbiotic relationships virus vector associations and various tactics for integrated management of this pest insect The book is focused primarily on progress during the last 10 15 years and is directed at workers in the field as well as the informed professional who may not necessarily specialize in

whitefly research The book is unique in providing broad coverage in relatively few chapters by recognized experts that highlight the state of the art in our understanding of this fascinating but troublesome cosmopolitan pest **TRIPS plus 20**  
Hanns Ullrich, Reto M. Hilty, Matthias Lamping, Josef Drexler, 2016-01-29 This book examines the impact and shortcomings of the TRIPS Agreement which was signed in Marrakesh on 15 April 1994 Over the last 20 years the framework conditions have changed fundamentally New technologies have emerged markets have expanded beyond national borders some developing states have become global players the terms of international competition have changed and the intellectual property system faces increasing friction with public policies The contributions to this book inquire into whether the TRIPS Agreement should still be seen only as part of an international trade regulation or whether it needs to be understood or even reconceptualized as a framework regulation for the international protection of intellectual property The purpose therefore is not to define the terms of an outright revision of the TRIPS Agreement but rather to discuss the framework conditions for an interpretative evolution that could make the Agreement better suited to the expectations and needs of today's global economy GIBBS
