## **Nmmu Postgraduate Prospectus 2015:**

**Infrastructures for Peace in Sub-Saharan Africa** Mediel Hove, Geoff Harris, 2019-06-14 Cultures of violence are characteristic of many countries in sub Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it *Participatory Visual Methodologies*

Claudia Mitchell, Naydene De Lange, Relebohile Moletsane, 2017-09-18 This book demonstrates how data from participatory visual methods can take people and communities beyond ideological engagement initiating new conversations and changing perspectives policy debates and policy development These methods include for example photo voice participatory video drawing mapping and digital storytelling Organised around a series of tools that have been used across health education environmental and sociological research *Participatory Visual Methodologies* illustrates how to maintain participant engagement in decision making navigate critical issues around ethics track policies and maximize the potential of longitudinal studies Tools discussed include Pedagogical screenings Digital dialogue devices Upcycling and speaking back interventions Participant led policy briefs An authoritative and accessible guide to how participatory visual methods and arts based methods can influence social change this book will help any postgraduate researcher looking to contribute to policy dialogue
