Mark of the Beast Alfredo Bonadeo, 1989-01-23 The First World War is a watershed in the intellectual and spiritual history of the modern world On the one hand it brought an end to a sense of optimism and decency bred by the prosperity of nineteenth century Europe On the other it brought forth a sense of futility and alienation that has since pervaded European thought That cataclysmic experience is richly reflected in the work of writers and artists from both sides of the conflict and this study provides a detailed analysis of two basic themes death and degradation that mark the literature about the war From their accounts most men entered the war lightheartedly filled with ideals of patriotism and glory but these generous feelings were soon quelled as the war settled into a stalemate its operations reduced to simply grinding away the opposing forces In these operations Alfredo Bonadeo shows men became mere aggregations thrown against one another wasted with no appreciable effects or gains save carnage itself This cheapening and disregard for human life and being Bonadeo finds rooted not only in the conditions of war but significantly in a contempt for the common man prevailing in European political and intellectual circles This attitude is revealed most plainly in his analysis of the Italian literature which hitherto has received little note Italian leaders saw the war as an opportunity to expiate a sense of national guilt and here the inconclusive campaigns made their futility all the greater Out of the torn fields of the First World War grew the seeds of a second greater conflict but Professor Bonadeo concludes the flowering of the

seeds was aided by the degradation of man's spirit on those fields. The grim focus of this book, the dead voices it evokes, leads to a new appreciation of the meaning of the Great War.

Prague, Capital of the Twentieth Century Derek Sayer, 2021-11-09. The story of modernity told through a cultural history of twentieth-century Prague. Setting out to recover the roots of modernity in the boulevards, interiors, and arcades of the city of light, Walter Benjamin dubbed Paris the capital of the nineteenth century. In this eagerly anticipated sequel to his acclaimed *Coasts of Bohemia: A Czech History*, Derek Sayer argues that Prague could well be seen as the capital of the much darker twentieth century. Ranging across twentieth-century Prague's astonishingly vibrant and always surprising human landscape, this richly illustrated cultural history describes how the city has experienced and suffered more ways of being modern than perhaps any other metropolis. Located at the crossroads of struggles between democratic, communist, and fascist visions of the modern world, twentieth-century Prague witnessed revolutions and invasions, national liberation and ethnic cleansing, the Holocaust, show trials, and snuffed-out dreams of socialism with a human face. Yet between the wars, when Prague was the capital of Europe's most easterly parliamentary democracy, it was also a hotbed of artistic and architectural modernism and a center of surrealism, second only to Paris. Focusing on these years, Sayer explores Prague's spectacular modern buildings, monuments, paintings, books, films, operas, exhibitions, and much more. A place where the utopian fantasies of the century repeatedly unraveled, Prague was tailor-made for surrealist André Breton's black humor, and Sayer discusses the way the city produced unrivaled connoisseurs of grim comedy from Franz Kafka and Jaroslav Hasek to Milan Kundera and Václav Havel. A masterful and unforgettable account of a city where an idling flâneur could just as easily be a secret policeman, this book vividly shows why Prague can teach us so much about the twentieth century and what made us who we are.
