Heldwein, 2016-10-11 To the mind true spirituality seems a contradiction in terms a paradox Peace that elusive quality universally sought is that which you always already Are You are being invited to sense know and experience yourself as This It is paradoxical to be invited to that which one already Is The invitation is to allure the mind and at the same time to break through its infinite realms of conditioning So highly conditioned is the modern human that the entire population to a greater or lesser degree identifies with or believes themselves to be the mind Have you ever entertained with any degree of seriousness the question Who Am I As of this writing more and more of this planets population are beginning to take an interest in the Truth the Truth of what they Are as well as embrace the Truth of what everything Is Rest assured nothing is as it seems to be to the mind You are being invited to step aside from the mind and its incessant chatter in the quest for Peace When the activity of the mind begins to cease that which is left cannot be described You are being invited to simply find out what it is that awaits when all that is false is exposed In this revelation awaits your Truth your Peace **The Wind Chimes of Life** D.
