Winner Takes All Jenny Urban:

Urban Politics Myron A. Levine, 2019-07-24 *Urban Politics* blends the most insightful classic and current political science and related literature with current issues in urban affairs. The book's integrative theme is power, demonstrating that the study of urban politics requires an analyst to look beyond the formal institutions and procedures of local government. The book also develops important subthemes: the impact of globalization, the dominance of economic development over competing local policy concerns, the continuing importance of race in the urban arena, local government activism versus the limits imposed on local action by the American constitutional system and economic competition, and the impact of national and state government action on cities. *Urban Politics* engages students with pragmatic case studies and boxed material that use classic and current urban films and TV shows to illustrate particular aspects of urban politics. The book's substantial concluding discussion of local policies for environmental sustainability and green cities also appeals to today's students. Each chapter has been thoroughly rewritten to clearly relate the content to current events and academic literature, including the following: the importance of the intergovernmental city, the role of local governments as active policy actors and vital policy makers even in areas outside traditional municipal policy concerns, the prospects for urban policy and change in and beyond the Trump administration, including the ways in which urban politics is affected by but not determined by Washington. Mixing classic theory and research on urban politics with the most recent developments and data in urban and metropolitan affairs, *Urban Politics* 10e is an ideal introductory textbook for students of metropolitan and regional politics and policy. The book's material on citizen participation, urban bureaucracy, policy analysis, and intergovernmental relations also makes the volume an appropriate choice for Urban Administration courses. Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license.

Orphans of Islam Jamila Bargach, 2002-02-26 *Orphans of Islam* portrays the abject lives and excluded body of abandoned and bastard children in contemporary Morocco while critiquing the concept and practice of adoption, which too often is considered a panacea. Through a close and historically grounded reading of legal, social, and cultural mechanisms of one predominantly Islamic country, Jamila Bargach shows how the surplus bastard body is created by mainstream society. Written in part from the perspectives of the children and single mothers, intermittently from the view of adopting families and employing bastardy as a haunting and empowering motif with a potentially subversive edge, this ethnography is composed as an intricate, open-ended, and arabesque-like evocation of Moroccan society and its state institutions. It equally challenges received sociological and anthropological tropes and understandings of the Arab world.

Developing A Cross Cultural Curriculum Therese O'Donnell, 2012-07-23 This work makes the case that cross cultural issues are central to the purposes of legal education The authors argue for a critical multiculturalism that is attuned to questions of gender class sexuality and social justice and that must inform the whole law school curriculum *Live Music in America* Steve Waksman, 2022 When the Swedish concert singer Jenny Lind toured the U S in 1850 she became the prototype for the modern pop star Meanwhile her manager P T Barnum became the prototype for another figure of enduring significance the pop culture impresario Starting with Lind s fabled U S tour and winding all the way into the twenty first century Live Music in America surveys the ongoing impact and changing conditions of live music performance in the U S It covers a range of historic performances from the Fisk Jubilee Singers expanding the sphere of African American music in the 1870s to Benny Goodman bringing swing to Carnegie Hall in 1938 to 1952 s Moondog Coronation Ball in Cleveland arguably the first rock and roll concert to Beyonc s boundary shattering performance at the 2018 Coachella festival More than that the book details the roles played by performers audiences media commentators and a variety of live music producers promoters agents sound and stage technicians in shaping what live music means and how it has evolved Live Music in America connects what occurs behind the scenes to what takes place on stage to highlight the ways in which live music is very deliberately produced and does not just spontaneously materialize Along the way author Steve Waksman uses previously unstudied archival materials to shed new light on the origins of jazz the emergence of rock n roll and the rise of the modern music festival **Billboard** , 1946-11-02 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

Costume Design in the Movies Elizabeth Leese, 2012-12-19 Comprehensive lavishly illustrated reference work provides biographical career data for major designers Adrian Jean Louis Edith Head more Updated to 1988 with over 400 new film credits 177 illustrations Index of 6 000 films *Location of Public Services* Jenny de Fine Licht, David Karlsson, Louise Skoog, 2024-08-19 This book assesses the challenges faced by local governments when deciding on the location of public services Some physical signs of government presence are vital and generally welcomed within local communities Schools bus stops care facilities and public libraries are both crucial for the functioning and sustainability of communities and symbolize governmental engagement Conversely other types of facilities are typically unwelcome Waste and recycling stations wind farms and prisons often provoke protests from local residents Drawing on evidence from Sweden this book argues that decisions on how to locate services are inherently political and that in order to succeed authorities need to ensure that their

policies are perceived as legitimate It also demonstrates how the problem of locating public services is a universal issue relevant to governments at all levels and in all countries As urbanization and pressure on welfare systems grow the problem of locating public services looks set to become more pressing and the themes raised in the book are likely to remain relevant for years to come It will appeal to researchers and practitioners in the fields of public administration and local government studies as well as policymakers and public officials
