incarceration The two volumes are written in a comprehensive yet succinct and accessible style by experts familiar with the latest trends and findings *Military Construction, Veterans Affairs, and Related Agencies Appropriations for 2015, Part 1, 113-2 Hearings*, 2014 The Dragons and the Snakes David Kilcullen, 2020-02-04 Just a few years ago people spoke of the US as a hyperpower a titan stalking the world stage with more relative power than any empire in history Yet as early as 1993 newly appointed CIA director James Woolsey pointed out that although Western powers had slain a large dragon by defeating the Soviet Union in the Cold War they now faced a bewildering variety of poisonous snakes In *The Dragons and the Snakes* the eminent soldier scholar David Kilcullen asks how and what opponents of the West have learned during the last quarter century of conflict Applying a combination of evolutionary theory and detailed field observation he explains what happened to the snakes non state threats including terrorists and guerrillas and the dragons state based competitors such as Russia and China He explores how enemies learn under conditions of conflict and examines how Western dominance over a very particular narrowly defined form of warfare since the Cold War has created a fitness landscape that forces adversaries to adapt in ways that present serious new challenges to America and its allies Within the world s contemporary conflict zones Kilcullen argues state and non state threats have increasingly come to resemble each other with states adopting non state techniques and non state actors now able to access levels of precision and lethal weapon systems once only available to governments A counterintuitive look at this new vastly more complex environment *The Dragons and the Snakes* will not only reshape our understanding of the West s enemies capabilities but will also show how we can respond given the increasing limits on US power **‘Africa Forms the Key’** Suryakanthie Chetty, 2021-01-04 This book examines the work of prominent South African geologist Alex Du Toit as a means of understanding the debate around continental drift both in segregation era South Africa and internationally It contextualises Du Toit s work within a particularly formative period of South African science from the paleoanthropological discoveries that sparked debates about the origins of humankind to Jan Smuts own theory of holism Beyond South African scientific discoveries the book sets Du Toit s work against a backdrop of ideological struggles over space both domestically in terms of segregation and nationalism as well as internationally as South Africa sought to assert its position within the Commonwealth These debates were embodied by Du Toit s work on the theory of continental drift which put Africa and South Africa at the centre geologically and geographically The author also focuses on the divisions in geology caused by drift theory tracing the vigorous intellectual debate and dissent indicative of the ideological milieu within which scientific thought is constructed It traces the history of continental drift from its inception in the nineteenth century and later work of Alfred Wegener which was both elaborated upon and substantiated by Du Toit The study further focuses on Du Toit s research on continental drift in South African and South America and the geological fossil and climatological evidence used to bolster this theory **Land Rights, Biodiversity Conservation and Justice** Sharlene Mollett, Thembela Kepe, 2018-04-17 In the context of sustainable development recent land debates tend to construct two

porous camps On the one side norms of land justice and their advocates dictate that people's rights to tenure security are tantamount and even sometimes key to successful conservation practice On the other hand biodiversity protection and conservation advocates supported by global environmental organizations and states remain committed to conservation strategies steeped in genetics and biological sciences working on behalf of a global mandate for biodiversity and climate change mitigation Land Rights Biodiversity Conservation and Justice seeks to illuminate struggles for land and territory in the context of biodiversity conservation This edited volume explores the particular ideologies narratives and practices that are mobilized when the agendas of biodiversity conservation practice meet clash and blend with the demands for land and access and control of resources from people living in and in close proximity to parks The book maintains that while biodiversity conservation is an important goal in a time where climate change is a real threat to human existence the successful and just future of biodiversity conservation is contingent upon land tenure security for local people The original research gathered together in this volume will be of considerable interest to researchers of development studies political ecology land rights and conservation

Counter-Insurgency in Nigeria Akali Omeni, 2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military's internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work's analysis of the air force's role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general

Local Peacebuilding and Legitimacy Landon E. Hancock, Christopher Mitchell, 2018-02-15 This volume searches for pragmatic answers to the problems that continue to beset peacebuilding efforts at all levels of society with a singular focus on the role of legitimacy Many peacebuilding efforts are hampered by their inability to gain the support of those they are trying to help at the local level or those at regional national or international levels whose support is necessary either for success at the local level or to translate local successes to wider arenas There is no one agreed upon reason for the difficulty in translating peacebuilding from one arena of action to another but among those elements that have

been studied one that appears understudied or assumed to be unimportant is the role of legitimacy Many questions can be asked about legitimacy as a concept and this volume addresses these questions through multiple case studies which examine legitimacy at local regional national and international levels as well as looking at how legitimacy at one level either translates or fails to translate at other levels in order to correlate the level of legitimacy with the success or failure of peacebuilding projects and programs The value of this work lies both in the breadth of the cases and the singular focus on the role of legitimacy in peacebuilding By focusing on this concept this volume represents an attempt to build beyond the critical peacebuilding approach of deconstructing the liberal peacebuilding paradigm to a search for pragmatic answers to the problems that continue to plague peacebuilding efforts at all levels of society This book will be of much interest to students of peacebuilding conflict resolution development studies security studies and International Relations
