Sa Army Data 2015 16:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world.

Professional Journal of the United States Army, 2016-07 **Military Review**, 2016 **Reforming Civil-Military Relations in New Democracies** Aurel Croissant, David Kuehn, 2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations. By tracing the development of civil military relations in various new democracies from a comparative perspective, it links two bodies of scholarship that thus far have remained largely separate: the study of emerging or failed civilian control over armed forces on the one hand and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other. The empirical and theoretical findings presented here will appeal to scholars of civil military relations, democratization and security issues as well as to defense policy makers.

Hennie Smit, 2019-03-31 *Contemporary Military Geosciences in South Africa* presents the reader with chapters celebrating the scope, reach and impact of themes researched by military geoscientists. The first topics under investigation range from battlefield archaeology and battlefield tourism to military environmental management and the development of a unique South African spatial decision support system for military integrated environmental management. This is followed by an in-depth look at contemporary maritime factors at play in South Africa. The book is concluded by an analysis of the issues surrounding military mobility, software and terrain negotiability as well as a comprehensive examination of how geographic factors influence the distribution of natural radionuclides in a military area.

The Economics of Defense Industry Thomas-Durell Young, 2023-10-17 This book on the economics of defence industry assesses a series of historical and

contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis

Geography of Time, Place, Movement and Networks, Volume 2 Stanley D. Brunn,2024-05-23 This book explores journeys in a time context with a focus on places place meanings and landscapes Whether the journey relates to ancient or modern trails roads or railroads or a historical or contemporary pilgrimage or a tourist venture in social contexts the book addresses the importance of places and environmental settings whereby time itself is described and defined in multiple contexts The chapters discuss among others archaeological and pre history settings tourism settings and heritage events as well as regional and transnational migration routes and those used by historical nomadic cultures and postmodern nomads Some time and place journeys are fluid and dynamic and re interpreted while for others there is much sameness in the visible landscapes Retaining the past and reconstructing the past are both journeys That sameness concept is also applied to cultural and political worlds where there is little progress or reform to address social welfare and empowerment This book opens the door for exploring shallow and deep journeys by those in the humanities and social sciences at local national and regional scales

African Security John Siko,Jonah Victor,2020-03-19 The world s fastest growing continent demographically Africa displays nearly all the features of today s global security challenges armed conflict terrorism irregular migration organized crime great power competition public discontent and economic turbulence John Siko and Jonah Victor present their lessons from professional practice and pedagogical approach from the classroom in a concise guidebook that leads students and professionals through the most important issues dynamics challenges and considerations for analysing and planning responses to security developments in Africa This book provides issue by issue primers on the causes and consequences of Africa s security challenges that include

how to anticipate security problems across current political and economic events how to analyse African security institutions and military capabilities how to understand historical trends across the African continent and appreciate unique variations among countries how to identify key drivers of future trends how to connect security analysis to policy planning Learning is supported through the following features Thematic chapters which are optimized to help the reader quickly connect to the key concepts and analytic frameworks within the field The most relevant historical case studies enabling students to engage in sophisticated analysis and discussion Connections and contrasts between the situations in North Africa and sub Saharan Africa which are traditionally studied separately Special sections on understanding race and ethnicity and advice on traveling in Africa Chapter end checklists of key questions to enable practical engagement with the topics covered The Police in a Free Society Todd Douglas,2017-09-15 An unprecedented look at the evolution of American police from filling their intended role as peacekeepers and guardians of citizen rights to calling themselves and acting primarily as law enforcement officers As accusations of police misconduct and racial bias increasingly dominate the media *The Police in a Free Society* Safeguarding Rights While Enforcing the Law takes an unflinching look at the police the communities they serve and the politicians who direct them Author Todd Douglas a veteran state police commander exposes the occurrences of police misconduct and incompetence as well as incidences of charlatans who intentionally inflame racial tensions with the police for their own political or financial gain Readers will better understand what police officers must deal with on a daily basis grasp the role of lawmakers in keeping faith with the public and appreciate the tremendous challenges that police leaders face in attempting to reverse recent trends and shore up public confidence in police officers This is a rare glimpse into the often ugly reality of what happens on America s streets with insights gained from the perspective of the cop and suspect alike

Troubled Waters Mehran Kamrava,2018-05-15 *Troubled Waters* looks at four dynamics in the Persian Gulf that have contributed to making the region one of the most volatile and tension filled spots in the world Mehran Kamrava identifies the four dynamics as the neglect of human dimensions of security the inherent instability involved in reliance on the United States and the exclusion of Iraq and Iran the international and security policies pursued by inside and outside actors and a suite of overlapping security dilemmas These four factors combine and interact to generate long term volatility and ongoing tensions within the Persian Gulf Through insights from Kamrava s interviews with Gulf elites into policy decisions the consequences of security dilemmas the priorities of local players and the neglect of identity and religion *Troubled Waters* examines the root causes of conflicts and crises that are currently unfolding in the region As Kamrava demonstrates each state in the region including Saudi Arabia Iran and Qatar has embarked on vigorous security producing efforts as part of foreign policy flooding the area with more munitions thereby increasing insecurity and causing more mistrust in a part of the world that needs no more tension *Contemporary Military Geosciences in South Africa* Jacques Bezuidenhout,Hennie Smit,2019-03-20 *Contemporary Military Geosciences in South Africa* presents the reader with chapters celebrating the scope

Counter-Insurgency in Nigeria Akali Omeni,2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military's internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and

its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general
