Flood,2010-12-01 Covering an exhaustive range of information about the five boroughs the first edition of The Encyclopedia
of New York City was a success by every measure earning worldwide acclaim and several awards for reference excellence
and selling out its first printing before it was officially published But much has changed since the volume first appeared in
1995 the World Trade Center no longer dominates the skyline a billionaire businessman has become an unlikely three term
mayor and urban regeneration Chelsea Piers the High Line DUMBO Williamsburg the South Bronx the Lower East Side has
become commonplace To reflect such innovation and change this definitive one volume resource on the city has been
completely revised and expanded The revised edition includes 800 new entries that help complete the story of New York from
Air Train to E ZPass from September 11 to public order The new material includes broader coverage of subject areas
previously underserved as well as new maps and illustrations Virtually all existing entries spanning architecture politics
business sports the arts and more have been updated to reflect the impact of the past two decades The more than 5 000
alphabetical entries and 700 illustrations of the second edition of The Encyclopedia of New York City convey the richness and
diversity of its subject in great breadth and detail and will continue to serve as an indispensable tool for everyone who has
even a passing interest in the American metropolis **Abel Kiviat, National Champion** Alan S. Katchen,2009-07-10 Abel
Kiviat 1892 1991 was one of track and field s legendary personalities a world record holder and Olympic medalist in the
metric mile A teenage prodigy he defeated Hall of Fame runners before his twentieth birthday Alan S Katchen brings Kiviat s
fascinating story to life and re creates a lost world when track and field was at the height of its popularity and occupying a
central place in America s sporting world The oldest of seven children of Moishe and Zelda Kiviat Jewish immigrants from
Poland Abel competed as the Hebrew runner for New York s famed Irish American Athletic Club and was elected its captain
Katchen s engaging biography centers Abel Kiviat s life and his sport firmly in the context of American social history As a
quintessential New Yorker Kiviat embodies the urban and ethnic roots of American track From his first schoolboy
competitions on city playgrounds to his world records at Madison Square Garden to his pioneering role as track s press
steward in the age of emerging media Kiviat s life reveals how his sport was shaped by the culture of the emerging
metropolis New York City is not only the setting for these developments but also a subject of the book The narration is

enriched with brief portraits of celebrated track athletes including Kiviat's Olympic roommate Jim Thorpe. In addition, Katchen offers a detailed account of the IAAFC's evolution, including its close ties to the Tammany Hall political machine and sheds light on the rapid modernization of the sport and the ways it provided a vehicle for the assimilation of working class immigrant athletes. Finally, Katchen explores the social origins of the ideology of amateurism and its devastating impact on Kiviat's career. Kiviat died at ninety-nine, just months short of carrying the torch for the opening ceremonies of the Barcelona Olympics. Abel Kiviat, National Champion, pays tribute to a remarkable athlete and the sport during its most dynamic and celebrated era.

Life Inc Douglas Rushkoff, 2011-01-04. Now includes *The Life Inc Guide to Reclaiming the Value You Create*. In *Life Inc*, award-winning writer Douglas Rushkoff traces how corporations went from being convenient legal fictions to being the dominant fact of contemporary life. The resulting ideology, corporatism, has infiltrated all aspects of civics, commerce, and culture, from the founding of the first chartered monopoly to the branding of the self, from the invention of central currency to the privatization of banking, from the Victorian Great Exhibition to the solipsism of Facebook. *Life Inc* explains why we see our homes as investments rather than places to live, our 401(k) plans as the ultimate measure of success, and the Internet as just another place to do business. Most important, Rushkoff illuminates both how we've become disconnected from our world and how we can reconnect to our towns, to the value we can create, and mostly to one another. As the speculative economy collapses under its own weight, *Life Inc* shows us how to build a real and human-scaled society to take its place.

The Pedagogical Imagination Leon Sachs, 2014-05-01. French school debates of recent years, which are simultaneously debates about the French Republic's identity and values, have generated a spate of internationally successful literature and film on the topic of education. While mainstream media and scholarly essays tend to treat these works as faithful representations of classroom reality, *The Pedagogical Imagination* takes a different approach. In this study of French education and republicanism as represented in twenty-first century French literature and film, Leon Sachs shifts our attention from what literature and film say about education to how they say it. He argues that the most important literary and filmic treatments of French education in recent years—the works of Agnès Varda, Rik Orsenna, Abdellatif Kechiche, François Billaudot, and others—do more than merely depict the present-day school crisis. They explore questions of education through experiments with form. *The Pedagogical Imagination* shows how such techniques engage present-day readers and viewers in acts of interpretation that reproduce pedagogical principles of active, experiential learning principles at the core of late nineteenth-century education.
