Tom Lansford

Sa Army Military Skills Forms 2016:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Contemporary Issues in South African Military Psychology Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13 Contemporary Issues in South African Military Psychology is a well-timed, extremely thought-provoking imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields, specifically in the military field and context. This is specifically of importance as military psychology is a behavioural science that combines theory and practical application. Prof Karel Stanz, University of Pretoria.
