## **Sa Military 2015 2016 Form:**

*Military Review*, 2018      **South Africa's Post-Apartheid Military** Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

*'Africa Forms the Key'* Suryakanthie Chetty, 2021-01-04 This book examines the work of prominent South African geologist Alex Du Toit as a means of understanding the debate around continental drift both in segregation-era South Africa and internationally. It contextualises Du Toit's work within a particularly formative period of South African science from the paleoanthropological discoveries that sparked debates about the origins of humankind to Jan Smuts' own theory of holism. Beyond South African scientific discoveries, the book sets Du Toit's work against a backdrop of ideological struggles over space, both domestically in terms of segregation and nationalism as well as internationally as South Africa sought to assert its position within the Commonwealth. These debates were embodied by Du Toit's work on the theory of continental drift, which put Africa and South Africa at the centre geologically and geographically. The author also focuses on the divisions in geology caused by drift theory, tracing the vigorous intellectual debate and dissent indicative of the ideological milieu within which scientific thought is constructed. It traces the history of continental drift from its inception in the nineteenth century and later work of Alfred Wegener, which was both elaborated upon and substantiated by Du Toit. The study further focuses on Du Toit's research on continental drift in South African and South America and the geological fossil and climatological evidence used to bolster this theory.

**Nigeria-South Africa Relations and Regional Hegemonic Competence** Oluwaseun Tella, 2018-11-27 This book examines the relations between Nigeria and South Africa and their implications for regional influence across the African continent. With the largest and third largest economies in the region and a historical status as the major peacemakers on the continent, it is often argued that Africa's fate is directly linked to the success or failure of these regional powers. While there is widespread reference to each state's capabilities and regional

influence in the extant literature little analysis is offered on relations between Nigeria and South Africa and their impact on regional governance and provision of public goods on the continent This book attempts to fill the gap by engaging issues such as the hegemonic competence of the states their credentials for a permanent seat at the UNSC their efforts towards regional integration and their efforts towards combating the dark side of globalization including climate change drug trafficking and xenophobia It also engages a gender perspective to these states relations as well as their experiences of transitional justice Providing an in depth comparative analysis of the two so called African powerhouses this volume will be of interest to policy makers academics and students interested in Nigeria and South Africa s foreign policy regional powerhood and the African peace security and development agenda

security environment The causes and consequences of stress are explored followed by a comprehensive discussion of coping strategies and the negative consequences of not being able to cope effectively In this book a scientifically tested accessible model is also developed which provides a visual overview of the stress management process and captures the flow between stressors personality and coping strategies South Africa s High Stress Security Environment is a helpful guide for anyone who wants to gain a wider understanding and appreciation of the challenges and the courage of security personnel which we often take for granted Print edition not for sale in Sub Saharan Africa      *Sexual Assault from A-Z* Annie Novotny,2023-04-04 In the aftermath of a sexual assault it is normal for survivors and those that support them to find it hard to define their experience or put their thoughts and feelings into words It may be difficult to make decisions around how to move forward or begin the healing process Navigating the responses of the health care system legal system justice system in addition to family and community systems can be overwhelming for both survivors and their allies This book is a brief but comprehensive guide of common terminology statistics and resources relating to the current rape crisis movement In an attempt to shine a light on the potentially confusing and re traumatizing landscape of interventions that provide services to survivors Sexual Assault from A Z fosters empowerment and de stigmatization in order to help survivors and their allies make sense of their experience of sexual assault and to demonstrate to survivors that they are not alone      *The Russian Understanding of War* Oscar Jonsson,2019-11-01 This book analyzes the evolution of Russian military thought and how Russia s current thinking about war is reflected in recent crises While other books describe current Russian practice Oscar Jonsson provides the long view to show how Russian military strategic thinking has developed from the Bolshevik Revolution to the present He closely examines Russian primary sources including security doctrines and the writings and statements of Russian military theorists and political elites What Jonsson reveals is that Russia s conception of the very nature of war is now changing as Russian elites see information warfare and political subversion as the most important ways to conduct contemporary war Since information warfare and political subversion are below the traditional threshold of armed violence this has blurred the boundaries between war and peace Jonsson also finds that Russian leaders have particularly since 2011 12 considered themselves to be at war with the United States and its allies albeit with non violent means This book provides much needed context and analysis to be able to understand recent Russian interventions in Crimea and eastern Ukraine how to deter Russia on the eastern borders of NATO and how the West must also learn to avoid inadvertent escalation      **The Origin and Growth of Geography as a discipline at South Africa Universities** Gustav Visser,Ronnie Donaldson,Cecil Seethal,2016-09-20      *Annual Report* South Africa. Department of Defence,2016      **Authoritarian Populism and the Rural World** Ian Scoones,Marc Edelman,Saturnino M. Borrás Jr.,Lyda Fernanda Forero,Ruth Hall,Wendy Wolford,Ben White,2021-06-29 The rise of authoritarian nationalist forms of populism and the implications for rural actors and settings is one of the most crucial foci for critical agrarian studies today with many consequences for political action Authoritarian

Populism and the Rural World reflects on the rural origins and consequences of the emergence of authoritarian and populist leaders across the world as well as on the rise of multi class mobilisation and resistance alongside wider counter movements and alternative practices which together confront authoritarianism and nationalist populism The book includes 20 chapters written by contributors to the Emancipatory Rural Politics Initiative ERPI a global network of academics and activists committed to both reflective analysis and political engagement Debates about populism nationalism authoritarianism and more have exploded recently but relatively little of this has focused on the rural dimensions Yet wherever one looks the rural aspects are key not just in electoral calculus but in understanding underlying drivers of authoritarianism and populism and potential counter movements to these Whether because of land grabs voracious extractivism infrastructural neglect or lack of services rural peoples disillusionment with the status quo has had deeply troubling consequences and occasionally hopeful ones as the chapters in this book show The chapters in this book were originally published in The Journal of Peasant Studies
