Scholars explore how a broad range of elite and lowbrow cultural forms plantation diaries phonograph records pulp magazines shaped Faulkner's capacious imagination and how his works were translated into such media as film and modern dance. Essays place Faulkner's writings in dialogue with those of fellow twentieth century authors including W E B Du Bois Ernest Hemingway Richard Hall and Jayne Anne Phillips locate his work in relation to African American intellectual currents and Global South artistic traditions and weigh the rewards as well as the risks of dislodging Faulkner from the canonical position he currently occupies. While Faulkner studies has cultivated an image of the novelist as a neglected genius who toiled in obscurity a look back fifty years to the final months of the author's life reveals a widely traveled and celebrated artist whose significance was framed in national and international as well as regional terms. Fifty Years after Faulkner bears out that expansive view reintroducing us to a writer whose work retains its ability to provoke intrigue and surprise a variety of readerships.
