Unacceptable Expectations James A. Gauthier J.D., 2015-01-23 Exceptional students become exceptional teachers Rachel achieved her masters degree in education and became a certified teacher at age 17 Rachels first interview with the teachers union placed her on notice that she was a link in a curriculum driven education program She was to teach her grade level curriculum only and never bring attention upon herself or her peers Conformity was the rule and mediocrity was the goal Rachel refused the unions demand to conform and motivates her students to become exceptional and exceed grade level expectations The more successful Rachel is in her classroom the more the push back by the teachers union to return her to mediocrity Conflict between Rachel and the union results in the union poisoning Rachel falsely accusing her of abusing a student false drug violations on school property and ultimately the loss of her left leg as the union seeks to stop Rachels desire to help her students become exceptional Learn how Rachel fights back and creates the Sinclair Academy a private educational system that the union has no control over No longer does the union want to stop Rachel from promoting accelerated learning now the union wants her 2 500 teachers to join the teachers union See how far the teachers union will go in an attempt to force union membership and what a young tenacious teacher will do in saying No **Employment**
