101 Uses for Silly Putty Linda Sunshine, 1990 This granddaddy of all the great American fads bigger than pet rocks Hula Hoops and Ninja turtles combined now celebrates its 40th anniversary with a book of uses for a seemingly useless substance Includes a plastic egg of Silly Putty

Manufacturing David O. Whitten, Bessie E. Whitten, 1990-09-27 Overall this first volume in the series should render business research in manufacturing a good deal easier by bringing together insightful industry histories and detailed critical bibliographies This series has much to recommend it Future volumes will be eagerly awaited *Reference Books Bulletin* This historical and bibliographical reference work is the first volume of Greenwood Press's *Handbook of American Business History* a series intended to supplement current bibliographic materials pertaining to business history Devoted to manufacturing this work uses the Enterprise Standard Industrial Classification ESIC to divide the subject into distinct segments from which contributors have developed histories and bibliographies of the different types of manufacturing Though authors were given sets of guidelines to follow they were also allowed the flexibility to work in a format that best suited the material Each contribution in this volume contains three important elements a concise history of the manufacturing sector a bibliographic essay and a bibliography Some contributions appear in three distinct parts while others are combined into one or two segments all build on currently available material for students and scholars doing research on

business and industry The contributors who include business economic and social historians as well as engineers and lawyers have covered such topics as bakery products industrial chemicals and synthetics engines and turbines and household appliances Also included are an introductory essay that covers general works and a comprehensive index This book should be a useful tool for courses in business and industry and a valuable resource for college university and public libraries

Origin of Everyday Things Johnny Acton,Tania Adams,Matt Packer,2006 Describes the origins of over 400 everyday items arranged in alphabetical order **Innovators** Marcia Amidon Lusted,2017-07-17 Most people have heard of Thomas Edison Steve Jobs and Mark Zuckerberg but how about Daniel Hale Williams Mae Jemison and Mary Anderson The world owes a lot to the unsung heroes of innovation names that many people don t know though we use their inventions and improvements on a daily basis These are people who turned their ideas into ways to make the world a better place through advances in health technology food science and discovery In *Innovators The Stories Behind the People Who Shaped the World with 25 Projects* readers ages 9 to 12 learn about the products processes and improvements people have made to create the reality in which we live For example in 1938 Ruth Wakefield got the idea to add bits of chocolate to her cookies and invented Toll House chocolate chip cookies *Innovators* also tackle many serious problems such as Virginia Apgar who designed a test for newborns to determine how healthy they were The Apgar test is still being used in hospitals today And in 2012 at the age of just 15 Jack Andraka developed a speedy and cheap method to detect pancreatic cancer early which has the potential to save thousands of people from several deadly cancers Being innovative means thinking creatively and critically to solve problems and find improvements People of any age can be innovators all it takes is an open mind curiosity and a desire to come up with ideas Hands on activities provide practical applications for learning the engineering design process and include learning how to send messages in Morse Code creating a homemade version of Silly Putty and figuring out how to make a solar powered oven *Innovators* incorporates a digital learning experience by providing links to primary sources videos and relevant websites for deeper independent learning and inspiration **Garden Mosaics** Marianne E. Krasny,2005 **The Story of Silly Putty, How It Works.** Steven L Smith,2022-08-22 In 1943 Silly Putty was accidentally produced by James Wright an engineer in General Electric s New Haven laboratory which was under a government contract to manufacture an economical alternative for synthetic rubber for the war effort By mixing boric acid with silicone oil a polymer evolved that would stretch and bounce further than rubber even at severe temperatures In addition the material would replicate any newspaper or comic book print that it touched There is substantial controversy about who obtained the initial patent Corning Glass Works who was also exploring a replacement for rubber sought for a patent in 1943 and got it in 1947 for treating dimethyl silicone polymer with boric oxide Wright filed for his patent in 1944 In any instance Wright is still formally credited with the invention By 1945 General Electric GE had shared this finding with experts throughout the globe only to find that none of them including those at the U S War Production Board deemed it more practicable than the

synthetic rubber currently then being made Several years later an unemployed copywriter called Peter Hodgson realized its marketing potential as a children s toy after initially seeing it sold at a local toy shop as an adult present Hodgson obtained the manufacturing rights from GE and renamed it Silly Putty packaging it in plastic eggs since Easter was on the way
