Mees, 2025-06-17 Humans are at home on land not in the sea We know more about the surface of Mars than about our own deep sea The ocean contains the highest mountains on Earth and is home to countless mysterious sea creatures that have barely been studied Due to this lack of knowledge we underestimate the crucial role the ocean plays for the planet and therefore also for humanity for example in the fight against climate change This book aims to change that Based on the latest scientific insights it seeks to immerse the reader through storytelling in the hidden beauty and complex workings of the ocean The authors explain how ocean warming acidification overfishing and pollution threaten not only its fragile flora and fauna but also us Yet all is not lost technological revolutions offer hope if we act in time The Unknown Sea explores how we can rise to the challenges The Unknown Sea is officially endorsed as an Ocean Decade Activity under the United Nations Decade of Ocean Science for Sustainable Development 2021-2030 This recognition highlights the book's contribution to advancing ocean knowledge and supporting global efforts towards a more sustainable and resilient ocean Through its insights and perspectives The Unknown Sea aligns with the Ocean Decade's mission to transform ocean science into actionable solutions for society **Mythomania: Tales of Our Times, from Apple to Isis** Peter Conrad, 2017-01-10

Weaves ancient myth into modern celebrity and consumerist culture to expose the absurdity and occasional insanity of twenty first century society economy and politics Despite a proclaimed respect for scientific reason humans are still as intrigued by myth as their remote ancestors Laptops and smartphones are sold under a logo that invokes the forbidden fruit of the Garden of Eden skimpily clad classical nymphs cavort in TV reality shows Narcissus makes a comeback whenever we snap a selfie Mythical creatures such as handsome vampires abound in best selling novels Myth has also invaded the political realm now that terrorists brandish black flags and recite theological mantras as they martyr themselves In twenty seven self contained entries Conrad illuminates in his own remarkable way subjects from the British Queen to the Kardashians via Banksy vaping and the inception of the Large Hadron Collider In Judge Judy he shows a matronly Roman goddess dispensing justice with a fly swatter In the metamorphosis of Caitlyn Jenner from Olympic athlete and paterfamilias into idealized female form he finds parallels to the transformations of the residents of Mount Olympus Myths used to tell us where we came from Now alarmed but also elated by the pace of change in our society we need them to tell us where we are going
