Books for Children, Books for Adults Teresa Michals, 2014-03-06 In this groundbreaking and wide ranging study Teresa Michals explores why some books originally written for a mixed age audience such as Daniel Defoe's *Robinson Crusoe* eventually became children's literature while others such as Samuel Richardson's *Pamela* became adult novels Michals considers how historically specific ideas about age shaped not only the readership of novels but also the ways that characters are represented within them Arguing that age is first understood through social status and later through the ideal of psychological development the book examines the new determination of authors at the end of the nineteenth century such as Henry James to write for an audience of adults only In these novels and in their reception a world of masters and servants became a world of adults and children

Urban Rehearsals and Novel Plots in the Early American City Betsy Klimasmith,2021-11-04 Urban Rehearsals and Novel Plots in the Early American City sheds new light on the literature of the early US by exploring how literature theatre architecture and images worked together to allow readers to imagine themselves as urbanites even before cities developed In the four decades following the Revolutionary War the new nation was a loose network of nascent cities connected by print Before a national culture could develop local city cultures took shape literary texts played key roles in helping new Americans become city people Drawing on extensive archival research *Urban Rehearsals* argues that literature particularly novels and plays allowed Bostonians to navigate the transition from colonial town to post revolution city enabled Philadelphians to grieve their experiences of the 1793 Yellow Fever epidemic and rebuild in the epidemic s aftermath and showed New Yorkers how the domestic practices that reinforced their urbanity could be opened to the broader public Throughout attention to underrepresented voices and texts calls attention to the possibilities for women immigrants and Black Americans in developing urban spaces while showing how those possibilities would be foreclosed as the nation developed Balancing attention to canonical texts of the

early Republic including *The Power of Sympathy* Charlotte Temple and Benjamin Franklin's *Autobiography* with novels whose depiction of early cities deserves greater attention such as *Ormond* *The Boarding School* *Monima* and *Kelroy* this volume shows how US cities developed on the pages and stages of the early Republic building urban imaginations that would construct the nation's early cities

The Cruel Optimism of Racial Justice Nasar Meer, 2022-03-22 What can we learn from successes and failures in the pursuit of racial justice in the UK and elsewhere in the Global North A dominant view of racial justice has long been linked to a cruel optimism which normalises social and political outcomes that sustain racial injustice despite successive governments wielding the means to address it Researchers activists and minoritised groups continually identify the drivers of these outcomes but have grown accustomed to persevering despite strong resistance to change Looking at numerous examples across anti racist movements and key developments in nationhood nationalism institutional racism migration white supremacy and the disparities of COVID 19 Nasar Meer argues for the need to move on from perpetual crisis in racial justice to a turning point that might herald a change to deep seated systems of racism

Novel Shocks Myka Tucker-Abramson, 2018-12-04 Throughout the 1950s a coalition of developers politicians and planners bulldozed vast areas of land deemed slums or blighted to make way for freeways public and private housing projects cultural centers and skyscrapers While the program was national New York was ground zero and the demolition and monumental reconstruction of the city created a distinctive urban sensorium rooted in the new segregated landscapes of prosperous white private space and poor black public space Novel Shocks situates these

landscapes at the center of the midcentury novel arguing that James Baldwin Ralph Ellison Patricia Highsmith Ayn Rand William Burroughs Sylvia Plath and Warren Miller all registered these new urban spaces as traumatic shocks that required new aesthetic forms Rejecting older shock based modernisms these novelists forged a new modernism which reimagined shock as a therapeutic force that would create a more flexible self reliant and resilient subject that would nourish neoliberalism s roots In offering a cultural prehistory of neoliberalism *Novel Shocks* resituates the Cold War novel as a key archive for understanding neoliberalism s emergence and offers a more materialist and historically grounded account of neoliberalism s subjective affective and ideological structures

Interrogating Neoliberalism and Cruel Optimism in Education Louise Azzarello, 2025-03-31 This book is a philosophical examination of the ways in which neoliberalism underpins and impedes public education It proposes that education s adoption of neoliberal logic generates a sense of despair amongst educators who often enter the profession with the hope of building a better more just world Drawing on the author s 27 years of experience as a secondary classroom teacher and engaging with a range of theoretical concepts cultural objects and scenes of violence from her time in the classroom *The Radical Potency of Despair* renders visible the ongoing harms that neoliberal logic creates for education and educators The author proposes a new ruptured fantasy of education and suggests that it is not hope that ignites educators who keep fighting for education but rather despair Despair is conceived of as a generative force provoking educators to hold time and space open for pedagogical encounters that interrupt the ongoing instrumentalization of education The author further conceptualizes a notion of thinking with images as a pedagogical interruptive force Thinking with images she argues gives students time and space to attend to what they see thus affording them the chance to think differently about the violence of modern society Such pedagogical interruptions are presented as a refusal of the normative order of education countering present infrastructures that aim to constrain and instrumentalize education A compelling and original volume it will appeal to scholars researchers and upper level students with interests in neoliberalism and education the philosophy of education critical pedagogy and educational policy and politics
