Medikamenten bersichten Pr fungsschwerpunkte klinische Tipps Synthesis of Cannabinoid Ligands Thomas Hurrel, 2018-10-26 Since the discovery of the endocannabinoid system cannabis and cannabinoids have received renewed attention The elucidation of the biochemical machinery responsible for cannabinoid effects has led to the identification of several targets that can be addressed by cannabinoid analogs The most prominent targets are the cannabinoid receptors CB1 and CB2 The endocannabinoid system acts as a versatile regulating system found in mammals that is involved in a broad range of physiological and neuronal processes Accordingly cannabinoid ligands have been proposed for the treatment of a large number of diseases and symptoms including cancer multiple sclerosis and AIDS In the present thesis several strategies to address the endocannabinoid system were pursued Besides the synthesis of well over a hundred potentially active new compounds based on the lead structure of the potent cannabinoid analogs 3 benzylcoumarins a formal total synthesis of tetrahydrocannabinol THC via an DIELS ALDER reaction was concluded Additionally some of the most potent compounds

from preceding work have been encapsulated in micro and nanoparticulate carrier systems The particles were capable to release their cannabinoid payloads over hours days weeks and even months The described microparticulate carrier systems should be able to generate site specific and long term stable drug levels

**Developing Practical Nursing Skills, Fourth Edition** Lesley Baillie,2014-01-27 Developing Practical Nursing Skills Fourth Edition helps you learn and perfect the practical skills required to become a qualified nurse Patient focussed and adopting a caring approach this essential text will also help you to integrate nursing values alongside physical skills in your daily practice Key features include Full colour text design with clear illustrations and clinical photographs to aid visual learning Evidence based and clearly mapped to key guidelines to ensure best practice Reader friendly style with learning outcomes activities and reflection points to help you link theory to practice Scenarios from a range of settings including community mental health and learning disabilities nursing A focus on adults and young people and with pointers on caring for children to promote a lifespan approach Free companion website providing image library videos of key skills and MCQs as well as additional resources for lecturers to download This is a complete clinical skills resource for all pre registration nursing students
