Routledge Handbook Of Constitutional Law:

Routledge Handbook of Constitutional Law Mark Tushnet, Thomas Fleiner, Cheryl Saunders, 2013-06-26 The Routledge Handbook of Constitutional Law is an advanced level reference work which surveys the current state of constitutional law. Featuring new specially commissioned papers by a range of leading scholars from around the world, it offers a comprehensive overview of the field as well as identifying promising avenues for future research. The book presents the key issues in constitutional law thematically, allowing for a truly comparative approach to the subject. It also pays particular attention to constitutional design, identifying and evaluating various solutions to the challenges involved in constitutional architecture. The book is split into four parts for ease of reference. Part One: General issues sets issues of constitutional law firmly in context, including topics such as the making of constitutions, the impact of religion and culture on constitutions, and the relationship between international law and domestic constitutions. Part Two: Structures presents different approaches in regard to institutions or state organization and structural concepts such as emergency powers and electoral systems. Part Three: Rights covers the key rights often enshrined in constitutions. Part Four: New Challenges explores issues of importance such as migration and refugees, sovereignty under pressure from globalization, Supranational Organizations and their role in creating post-conflict constitutions, and new technological challenges. Providing up-to-date and authoritative articles covering all the key aspects of constitutional law, this reference work is essential reading for advanced students, scholars, and practitioners in the field.

Routledge Handbook of Comparative Constitutional Change Xenophon Contiades, Alkmene Fotiadou, 2020-06-11 Comparative constitutional change has recently emerged as a distinct field in the study of constitutional law. It is the study of the way constitutions change through formal and informal mechanisms, including amendment, replacement, total and partial revision, adaptation, interpretation, disuse, and revolution. The shift of focus from constitution making to constitutional change makes sense since amendment power is the means used to refurbish constitutions in established democracies, enhance their adaptation capacity, and boost their efficacy. Adversely, constitutional change is also the basic apparatus used to orchestrate constitutional backslide, as the erosion of liberal democracies and democratic regression is increasingly affected through legal channels of constitutional change. Routledge Handbook of Comparative Constitutional Change provides a comprehensive reference tool for all those working in the field and a thorough landscape of all theoretical and practical aspects of the topic. Coherence from this aspect does not suggest a common view, as the chapters address different topics, but reinforces the establishment of comparative constitutional change as a distinct field. The book brings together the most respected scholars working in the field and presents a genuine contribution to comparative constitutional studies, comparative public law, political science, and constitutional history.

What is the purpose of comparative constitutional law Comparing constitutions allows us to consider the similarities and differences in forms of government and the normative philosophies behind constitutional choices Constitutional comparisons offer hermeneutic help they enable us to see our own constitution with different eyes and to locate its structural and normative choices by references to alternatives evident in other constitutional orders This Cambridge Companion presents readers with a succinct yet wide-ranging companion to a modern comparative constitutional law course offering a wide-ranging yet concise introduction to the subject Its twenty-two chapters are arranged into five thematic parts starting with an exploration of the theoretical foundations Part I and some important historical experiences Part II it moves on to a discussion of the core constitutional principles Part III and state institutions Part IV finally it analyses forms of transnational constitutionalism Part V that have emerged in our global times **Principles of French Constitutional Law** Marie-Luce Paris, 2024-12-11

Principles of French Constitutional Law offers a concise and accessible account of the key principles and rules of constitutional law in the French legal system presenting a much-needed up-to-date overview of this rapidly changing subject The textbook explores the five essential pillars that underpin the teaching of constitutional law namely the institutions legal history case law comparative law and current affairs and developments It is split into two core sections Part I examines the basis of French constitutional law the theoretical developments about key notions of constitutional law such as the state and the constitution as well as the historical background to French constitutional law Part II provides students with an understanding of the current Fifth Republic and how constitutional rules are adopted and applied and how they affect other areas of law and politics It offers a critical account of the 1958 Constitution's past present and future by placing it in its political and socio-historical contexts and critically assessing contemporary developments and constitutional reforms Given

the growing expansion of this branch of law in the French legal system this book will be essential reading for anyone studying French Law Law with French Comparative Constitutional Law and European Legal Studies Constitutionalism and Transnational Governance Failures ,2024-03-11 This book explores strategies for limiting transnational market failures governance failures and constitutional failures impeding protection of the universally agreed sustainable development goals like climate change mitigation and access to justice and transnational rule of law Can multilevel democratic and judicial protection of fundamental rights and public goods across frontiers be extended through plurilateral agreements Can transnational economic and environmental constitutionalism be reconciled with constitutional pluralism and with democratic constitutionalism depending on individual and democratic consent of free and equal citizens Will judicial challenges e g of EU carbon border adjustment measures and countermeasures lead to further disruption of UN and WTO law This innovative book provides convincing analyses by leading practitioners and academics of multilevel governance of transnational public goods It advocates the need for stronger involvement of civil society and democratic institutions It shows why constitutionalism and constitutional economics offer appropriate methodologies for limiting market failures government failures and constitutional failures It thereby offers a glimpse of much needed optimism Karl Ernst Brauner former Deputy Director General of the World Trade Organization WTO **The Age of Dignity** Catherine Dupré,2016-02-11 Human dignity is one of the most challenging and exciting ideas for lawyers and political philosophers in the twenty first century Even though it is rapidly emerging as a core concept across legal systems and is the first foundational value of the European Union and its overarching human rights commitment under the Lisbon Treaty human dignity is still little understood and often mistrusted Based on extensive comparative and cross disciplinary research this path breaking monograph provides an innovative and critical investigation of human dignity s origins development and above all its potential at the heart of European constitutionalism today Grounding its analysis in the connections among human dignity human rights constitutional law and democracy this book argues that human dignity s varied and increasing uses point to a deep transformation of European constitutionalism At its heart are the construction and protection of constitutional time and the multi dimensional definition of humanity as human beings citizens and workers Anchored in a detailed comparative study of case law including the two European supranational courts and domestic constitutional courts especially those of Germany the UK France and Hungary this monograph argues for a new understanding of European constitutionalism as a form of humanism *Gender-Competent Legal Education* Dragica Vujadinović,Mareike Fröhlich,Thomas Giegerich,2023-02-03 Male dominated law and legal knowledge essentially characterized the whole of pre modern history in that the patriarchy represented the axis of social relations in both the private and public spheres Indeed modern and even contemporary law still have embedded elements of patriarchal heritage even in the secular modern legal systems of Western developed countries either within the content of legislation or in terms of its implementation and interpretation This is true to a greater or lesser

extent across legal systems although the secular modern legal systems of the Western developed countries have made great advances in terms of gender equality The traditional understanding of law has always been self evidently dominated by men but modern law and its understanding have also been more or less malestreamed Therefore it has become necessary to overcome the given maskulinity of legal thought In contemporary legal and political orders gender mainstreaming of law has been of the utmost importance for overcoming deeply and persistently embedded power relations and gender based unequal social relations At the same time and equally importantly the gender mainstreaming of legal education to which this book aims to contribute can help to gradually eliminate this male dominance and accompanying power relations from legal education and higher education as a whole This open access textbook provides an overview of gender issues in all areas of law including sociological historical and methodological issues Written for students and teachers around the globe it is intended to provide both a general overview and in depth knowledge in the individual areas of law Relevant court decisions and case studies are supplied throughout the book

Law's Ethical, Global and Theoretical Contexts Upendra Baxi,Christopher McCrudden,Abdul Paliwala,2015-10-22 Law s Ethical Global and Theoretical Contexts examines William Twining s principal contributions to law and jurisprudence in the context of three issues which will receive significant scholarly attention over the coming decades Part I explores human rights including torture the role of evidence in human rights cases the emerging discourse on traditional values the relevance of Southern voices to human rights debates and the relationship between human rights and peace agreements Part II assesses the impact of globalization through the lenses of sociology and comparative constitutionalism and features an analysis of the development of pluralistic ideas of law in the context of privatization Finally Part III addresses issues of legal theory including whether global legal pluralism needs a concept of law the importance of context in legal interpretation the effect of increasing digitalization on legal theory and the utility of feminist and postmodern approaches to globalization and legal theory

The Resilience of the Hungarian Legal System since 2010 Fruzsina Gárdos-Orosz,2024-11-11 This open access book explains the factors that cause the poor functioning or failure of certain legal institutions or the success of others in the current Hungarian legal system after the 2010 transition from liberal to illiberal populist democracy The authors argue in

most regulatory areas that reform is needed in lawmaking or in the application and practice of law because there are systemic problems with the law's capacity for doctrinal resilience which lead to the primacy of other regulators than law such as the populist politics. An understanding of these processes is essential for the implementation of sound law and legal policy reforms for the maintenance of the legal guarantee system and for the successful development of institutions protecting and providing the fundamental rights. The volume documents how the Hungarian legal system changed after 2010 on the one hand and conceptualises these changes with the help of resilience on the other hand.

Constitutional Identity and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2024-01-23 In its modern history Africa has experienced different waves of constitutional ordering. The latest democratisation wave which began in the 1990s has set the stage over the past decade for what is now a hotly debated issue: do recent new or fundamentally revised constitutions truly reflect an African constitutional identity? Thoughtfully navigating a contested field, this volume brings to the fore a number of foundational questions about African constitutionalism. *Constitutional Identity and Constitutionalism in Africa* asks whether the concept of constitutional identity clarifies our understanding of constitutional change in Africa, including an exploration of the relationship between constitutional identity and a country's unique culture's and histories. Building on this, contributions examine the persistent role of colonial heritages in shaping constitutional identity in post-Independence African nations and the question of path dependency. Given the enduring influence of the colonial experience, the volume asks how, why, and to what end African constitutions must be decolonised to form an authentic constitutional identity. This theoretical insight is supplemented and further deepened by detailed case studies of South Africa, Ethiopia, Cape Verde, Cameroon, and Egypt and their diverse experience of constitutional continuity and change. This volume in the Stellenbosch Handbooks in African Constitutional Law series brings together contributions from established scholars and emerging voices on the study of constitutional processes. They provide an urgent critical analysis of existing paradigms, concepts, and normative ideologies of modern African constitutionalism in the context of constitutional identity.

Constitutions and Gender Helen Irving, 2017-06-30 *Constitutions and Gender* is a new and exciting field attracting scholarly attention and influencing practice around the world. This timely handbook features contributions from leading pioneers and younger scholars applying a gendered lens to constitution making and design, constitutional practice and citizenship, and constitutional challenges to gender equality rights and values. It offers a gendered perspective on the constitutional text and record of multiple jurisdictions from the long-established to the world's newly emerging democracies. *Constitutions and Gender* portrays a profound shift in our understanding of what constitutions stand for and what they do.

The Distorting Lens of Convergent Constitutional Theory Peter Cane, 2025-07-24 This book challenges the near universal acceptance of a US style Western constitutional paradigm as the best basis for comparative constitutional studies. It does so on three main grounds: anachronism, othering, and cultural specificity. Main pillars of convergent constitutional theory are rooted in the

revolutionary late eighteenth century a lost world constitutional arrangements that deviate from the paradigm are often branded as outliers or even as not constitutional at all and the foundations of the paradigm in liberal democracy give no space for other forms of constitutionalism Whatever the attractions of convergent theory as a normative ideal of good government for the purposes of understanding analysing and explaining constitutional systems it is far from ideal This book discusses and questions convergent theory s weddedness to writing as the technology of constitution making its image of a constitution as fundamental law its idea that a constitution expresses the sovereignty of the people its use of tripartite separation of powers as the basic principle of institutional design its relative neglect of administrative law its association of rights with judicially enforceable bills of rights and its obsession with a vaguely specified concept of democracy It makes suggestions for alternative preferable methods of understanding analysing and explaining constitutions and governmental and constitutional systems

Women, Gender, and Constitutionalism in Latin America Francisca Pou Giménez, Ruth Rubio Marín, Verónica Undurraga Valdés, 2024-04-30 This book discusses to what extent and how constitutional design and practice in Latin America have helped in combatting the subordination of women and LGBTQIA people Covering 11 jurisdictions the chapters identify the main elements of the constitutional gender order and survey jurisprudential and legislative developments in different areas incorporating contextual analysis and references to history political dynamics social movements feminist struggles normative efficacy and policy In the context of a constitutionalism that has been celebrated as particularly innovative and socially engaged the book assesses constitutional performance in the quest to supersede the separate gendered spheres tradition and the subordination of women and sexual minorities to heteronormative hegemony It fills an important gap in the field of gender and constitutionalism which has paid very little attention to Latin America compared to the Anglo American legal world and continental Europe It identifies regional trends but also variables which account for the diversity of approaches in various jurisdictions The book provides much needed insight into matters that are relevant for legal and socio legal scholars an ever growing number of social actors and movements and all those interested in comparative constitutionalism and in the intersections between law and gender

Constitutional Courts in Asia Albert H. Y. Chen, Andrew Harding, 2018-09-20 The founding of a constitutional court is often an indication of a chosen path of constitutionalism and democracy It is no coincidence that most of the constitutional courts in East and Southeast Asia were established at the same time as the transition of the countries concerned from authoritarianism to liberal constitutional democracy This book is the first to provide systematic narratives and analysis of Asian experiences of constitutional courts and related developments and to introduce comparative historical and theoretical perspectives on these experiences as well as debates on the relevant issues in countries that do not as yet have constitutional courts This volume makes a significant contribution to the systematic and comparative study of constitutional courts constitutional adjudication and constitutional developments in East and Southeast Asia and beyond

Unconstitutional Constitutional Amendments Yaniv

Roznai,2017-02-16 Can constitutional amendments be unconstitutional The problem of unconstitutional constitutional amendments has become one of the most widely debated issues in comparative constitutional theory constitutional design and constitutional adjudication This book describes and analyses the increasing tendency in global constitutionalism to substantively limit formal changes to constitutions The challenges of constitutional unamendability to constitutional theory become even more complex when constitutional courts enforce such limitations through substantive judicial review of amendments often resulting in the declaration that these constitutional amendments are unconstitutional Combining historical comparisons constitutional theory and a wide comparative study Yaniv Roznai sets out to explain what the nature of amendment power is what its limitations are and what the role of constitutional courts is and should be when enforcing limitations on constitutional amendments Asian Comparative Constitutional Law, Volume 2 Ngoc Son Bui,Mara Malagodi,2024-08-22 This is the second in a 4 volume set that provides the definitive account of the major issues of comparative constitutional law in Asian jurisdictions Volume 2 looks at constitutional amendments and offers answers to questions about the formal rules for amending the constitution such as Who initiates an amendment proposal How is the amendment proposal adopted How are the amendments codified and the neo institutional questions regarding amendment practices such as Why is the constitution amended Who engages in the amendment process How does the amendment affect the political system and the society Volume 2 covers 17 Asian jurisdictions including Bangladesh Cambodia mainland China Hong Kong India Indonesia Japan Malaysia Mongolia Myanmar North Korea the Philippines Singapore South Korea Sri Lanka Taiwan and Thailand
