The Inevitable Katie Engelhart, 2021-03-02 A remarkably nuanced empathetic and well crafted work of journalism The Inevitable explores what might be called the right to die underground a world of people who wonder why a medical system that can do so much to try to extend their lives can do so little to help them end those lives in a peaceful and painless way Brooke Jarvis The New Yorker More states and countries are passing right to die laws that allow the sick and suffering to end their lives at pre planned moments with the help of physicians But even where these laws exist they leave many people behind The Inevitable moves beyond margins of the law to the people who are meticulously planning their final hours far from medical offices legislative chambers hospital ethics committees and polite conversation It also shines a light on the people who help them loved ones and sometimes clandestine groups on the Internet that together form the euthanasia underground Katie Engelhart a veteran journalist focuses on six people representing different aspects of the right to die debate Two are doctors a California physician who runs a boutique assisted death clinic and has written more lethal prescriptions than anyone else in the U S an Australian named Philip Nitschke who lost his medical license for teaching people how to end their lives painlessly and peacefully at DIY Death workshops The other four chapters belong to people who said they wanted to die because they were suffering unbearably of old age chronic illness dementia and mental anguish and saw suicide as their only option Spanning North America Europe and Australia The Inevitable offers a deeply reported and fearless look at a morally tangled subject It introduces readers to ordinary people who are fighting to find dignity and authenticity in the final hours of their lives

about life Darwinian Evolution and Classical Liberalism Stephen C. Dilley, 2013-05-02 Darwinian Evolution and Classical Liberalism canvasses an array of thinkers from the past to the present as it examines fundamental political philosophical ethical economic anthropological and scientific aspects of the ferment between Darwinian biology and classical liberalism Early chapters focus on classical thinkers like John Locke and Adam Smith while later chapters provide analyses of present day classical liberals focusing especially on F A Hayek Thomas Sowell and Larry Arnhart the most prominent advocates of contemporary classical liberalism Thematically the volume falls into three parts Part I examines foundational matters arguing that Darwinism and classical liberalism hold incompatible visions of morality human nature and individual autonomy This section also contends that the free market s spontaneous order is fully compatible with a teleological or non Darwinian view of the universe Part II turns to contemporary applications contending that Darwinism and classical liberalism are at odds in their views of or implications about limited government vital religion economic freedom and the traditional family This section also argues that since its inception Darwinism has attenuated core tenets and values of classical liberalism and Western civilization Part III of the volume contains alternative views to those in the first two parts adding critical diversity to the book Respectively these chapters hold that Darwinian evolution simply has little to say about classical liberalism an evolutionary account of human volition is fully compatible with the individual choice presupposed in classical liberalism and evolutionary naturalism unlike religious alternatives provides a strong foundation for freedom morality and the traditional family **Index to Parliamentary Debates, Hansard** Australia.
