with both the natural world and the material world they have created All aspects of human activity are potentially relevant to
archaeological research and conversely the ways in which others especially artists and anthropologists have investigated the
world are of interest to archaeologists Archaeological artefacts and sites are also used by groups and nations to establish
identity and for financial gain both through tourism and trade in antiquities Colin Renfrew has actively engaged with art with
politics and with the antiquities trade and has presented his ideas to broad audiences through accessible books and television
