Web Data Mining Bing Liu, 2011-06-25 Liu has written a comprehensive text on Web mining which consists of two parts. The first part covers the data mining and machine learning foundations where all the essential concepts and algorithms of data mining and machine learning are presented. The second part covers the key topics of Web mining where Web crawling, search, social network analysis, structured data extraction, information integration, opinion mining, and sentiment analysis. Web usage mining, query log mining, computational advertising, and recommender systems are all treated both in breadth and in depth. His book thus brings all the related concepts and algorithms together to form an authoritative and coherent text. The book offers a rich blend of theory and practice. It is suitable for students, researchers, and practitioners interested in Web mining and data mining both as a learning text and as a reference book. Professors can readily use it for classes on data mining, Web mining, and text mining. Additional teaching materials such as lecture slides, datasets, and implemented algorithms are available online.

How Inclusive is Inclusive Business for Women? Asian Development Bank, 2016-05-01. Inclusive businesses are commercially viable business models that provide in scale innovative and systemic solutions to problems relevant to the lives of low income people. Inclusive business companies often involve women in their value chain and provide specific services that help low income women. This report assesses the extent to which inclusive business models promote women's economic empowerment. Examples come from the inclusive business portfolios of Asian Development Bank, Inter American Development Bank, and International Finance Corporation. The report finds that inclusive businesses are indeed bringing positive change to women's lives and that addressing gender based constraints also yields business benefits. However, a company's financial return and its social impact can be maximized only if companies understand and address systemic issues of gender inequality.
