 marginalized within the Ashkenazi Jewish community In *On the Margins of a Minority* Leprosy Madness and Disability among
 the Jews of Medieval Europe author Ephraim Shoham Steiner explores the life and plight of three of these groups Shoham
 Steiner draws on a wide variety of late tenth to fifteenth century material from both internal Jewish as well as external non
 Jewish sources to reconstruct social attitudes toward these others including lepers madmen and the physically impaired

Shoham Steiner considers how the outsiders were treated by their respective communities while also maintaining a delicate balance with the surrounding non Jewish community *On the Margins of a Minority* is structured in three pairs of chapters addressing each of these three marginal groups The first pair deals with the moral attitude toward leprosy and its sufferers the second with the manifestations of madness and its causes as seen by medieval men and women and the effect these signs had on the treatment of the insane the third with impaired and disabled individuals including those with limited mobility manual dysfunction deafness and blindness Shoham Steiner also addresses questions of the religious meaning of impairment in light of religious conceptions of the ideal body He concludes with a bibliography of sources and studies that informed the research including useful midrashic exegetical homiletic ethical and guidance literature and texts from responsa and halakhic rulings *Understanding and exploring attitudes toward groups and individuals considered other by mainstream society* provides us with information about marginalized groups as well as the inner social mechanisms at work in a larger society *On the Margins of a Minority* will appeal to scholars of Jewish medieval history as well as readers interested in the growing field of disability studies

A Review of Deviant Nonprofit Groups David Horton Smith, 2019-10-07 This book studies the deviant form of Nonprofit Groups NPGs mainly volunteer based associations but occasionally paid staff based nonprofit agencies A Deviant Nonprofit Group DNG is defined as a Nonprofit group that deviates significantly from certain moral norms of the society Smith Stebbins Dover 2006 p 68 The aim is to develop and present an empirically grounded theory with eighty three hypotheses about many of the key analytical features or operational and structural characteristics of DNGs Such DNGs were usually voluntary associations with memberships and usually run by volunteers not nonprofit agencies without memberships and usually run by paid staff Smith 2017a The total theory may be termed a Grounded General Theory of DNG Operation Structure The book is based on an extensive review and qualitative content analysis of about 260 published research documents representing twenty five common language vernacular purposive goal types of DNGs vs analytical theoretical types which do not exist in detail Moral norms are the broad emotionally charged customary directives concerning what is right and wrong by which members of a community or society implement their institutionalized solutions to problems significantly affecting their valued way of life Stebbins 1996 pp 2 3 All the grounded hypotheses reported here were supported by empirical evidence for at least one often two of the two or three specific DNGs studied for all DNG types in source documents Indeed all reported hypotheses were supported by most of the twenty five DNG types studied giving significant qualitative validity to the author's Grounded General Theory of DNG Operation Structure Such support suggests these hypotheses are valid at least sometimes for most DNG types and deserve further investigation Collectively the hypotheses of the present theory can be seen as a new theoretical paradigm for studying NPGs that helps bring analytical order to a previously chaotic realm of nonprofit sector deviant rule breaking phenomena
