Surgical Nursing Concepts Practice 2nd Edition provides the solid foundation you need to pass the NCLEX Examination and succeed as a new nurse. It builds on the fundamentals of nursing and covers roles, settings, health care trends, all body systems and their disorders, emergency and disaster management, and mental health nursing. Written by noted authors Susan deWit and Candice Kumagai, Medical Surgical Nursing reflects current national LPN/LVN standards with its emphasis on safety as well as complementary and alternative therapies. UNIQUE LPN Threads share learning features with Elsevier's other LPN textbooks, providing a consistency across the Elsevier LPN curriculum. Key Terms include phonetic pronunciations and text page references. Key Points are located at the end of chapters and summarize chapter highlights. Overview of Anatomy and Physiology at the beginning of each body system chapter provides basic information for understanding the body system and its disorders. Nursing Process provides a consistent framework for disorders chapters. Evidence-Based Practice is highlighted with special icons indicating current research. Assignment Considerations boxes address situations in which the charge nurse delegates to the LPN/LVN or the LPN/LVN assigns tasks to unlicensed assistive personnel. Focused Assessment boxes include information on history taking and psychosocial assessment, physical assessment, and guidance on how to collect data information for specific disorders. Elder Care Points boxes address the unique medical/surgical care issues that affect older adults. Legal and Ethical Considerations boxes focus on specific disorder-related issues. Safety Alert boxes highlight specific dangers to patients related to medications and clinical care. Clinical Cues provide guidance and advice related to the application of nursing care. Think Critically About boxes encourage you to synthesize information and apply concepts beyond the scope of the chapter. Concept Maps in the disorders chapters help you visualize difficult material and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Health Promotion boxes address wellness and disease prevention, including diet, infection control, and more. Complementary and Alternative Therapies boxes offer information on how nontraditional treatments for medical/surgical conditions may be used to complement traditional treatment. Cultural Considerations promote understanding and sensitivity to various ethnic groups. Nutrition Considerations address the need for holistic care and reflect the increased focus on nutrition in the NCLEX Examination. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care. Home Care Considerations boxes focus on post-discharge adaptations of medical/surgical nursing care to the home environment. Mental Health Nursing unit includes information on disorders of anxiety and mood, eating disorders, cognitive disorders, thought and personality disorders, and substance abuse. Disaster Management content includes material focusing on preparation and mitigation to avoid losses and reduce the risk of injury associated with both natural and bioterrorist disasters. Nursing Care Plans with Critical Thinking Questions show how a care plan is developed and how to evaluate care of a patient. Review questions for the NCLEX-PN Examination at the end of each chapter include alternate item format questions and help prepare you for class tests and the NCLEX exam. Critical Thinking Activities at the end of chapters include clinical situations and relevant questions allowing you

to hone your critical thinking skills UNIQUE Best Practices are highlighted to show the latest evidence based research related to interventions Online resources listed at the end of each chapter promote comprehensive patient care based on current national standards and evidence based practices UNIQUE Icons in page margins point to related animations video clips additional content and related resources on the Evolve site **Cumulated Index Medicus** ,1972 The Best Books:
