E-Learning and Business Plans Elaina Norlin, Tiffini Travis, 2008-07-25 With the invention of desktop computers electronic learning or e learning has become a convenient learning tool of choice for individuals with busy schedules For the past several years there has been a continuous stream of much needed innovation in the use of e learning and these have now become second nature to both e learning providers and users But just as e learning has enhanced and enriched our lives challenges have increased as the creation of courses and e learning material evolve Technology although it makes our lives easier can come with a not so affordable price tag As creators of e learning content after raising money to provide a costly e learning initiative how do we know if our customers or target audience are really learning Who is going to maintain the technology Who will subsidize the upkeep costs How do we

know if there is a better product on the horizon that can do it more cheaply and with more advanced technology infrastructure E learning and Business Plans National and International Case Studies provides a comprehensive view on how to develop non profit business plans for both small and large scale e learning projects Editors Tiffini Travis and Elaina Norlin present both national and international case studies covering many elements of a typical non profit business plan and reveal the experiences individuals have had while developing their project This book will be useful to professionals non profit organizations and academic researchers who are currently considering working on large scale e learning or high cost high risk projects While many issues are library related the book is relevant to non librarians as well

The psychological process of stereotyping: Content, forming, internalizing, mechanisms, effects, and interventions Baoshan

Zhang, Magdalena Zawisza, Fangfang Wen, Junhua Dang, Fengqing Zhao, 2023-02-06 Stereotype is a pervasive and persistent human tendency that stems from a basic cognitive need to categorize simplify and process the complex world This tendency is a precondition for social bias prejudice and discrimination Previous research has mainly focused on the content psychological mechanisms and intervention strategies of negative stereotypes as well as the stereotype threat phenomenon induced by an evaluative context where a negative in group stereotype could be confirmed However there is a lack of research examining the psychological process of forming and internalizing social stereotypes the neurocognitive mechanisms of stereotypes and the interventions including potential neurocognitive interventions addressing the consequences of negative stereotypes Furthermore as per the Behavioral Immune System BIS theory the very presence of a pathogen is likely to increase stereotyping across various social categories especially in those with a heightened perception of vulnerability to disease Thus stereotypes can be enhanced in the context of pathogen exposure such as the current outbreak of COVID 19 pandemic People exposed to the virus are more likely to suffer from personal and institutional stereotypes and discrimination which may cause negative consequences to personal and social well being Therefore in the current context of global Covid 19 pandemic it is necessary to investigate the increasing biases driven by stereotypes regarding viewing pathogens as a threat which holds across different social categories Specifically what constitutes and shapes stereotypes towards people living in epidemic areas What are the consequences of these short term shaped stereotypes What is the relationship between the consequences of these stereotypes and traditional stereotypes i e stereotypes towards race gender and age Will these short term stereotypes interact with traditional stereotypes to exacerbate discrimination or will the recategorization based on the short term stereotypes during Covid 19 pandemic allow people to ignore the traditional inferior social identity and in turn to promote social integration among different groups And how can we prevent the increasing tendency of relying on stereotypes and instead increase pro social behaviors in the Covid 19 context The current Research Topic focuses on understanding the psychological process of forming and internalizing social stereotypes the neurocognitive mechanisms of stereotypes as well as interventions including potential neurocognitive interventions regarding the consequences of negative stereotypes And we

also aim to gather the latest research investigating the broad psychological process of social stereotyping with an emphasis on the implications under the Covid 19 context That is this Research Topic is also interested in the negative stereotypes specific to Covid 19 pandemic as well as relevant preventative interventions aimed at people perceived as at higher Covid 19 exposure risk Theoretical and empirical research from psychology sociology and related fields is welcome Examples of possible themes for manuscripts include but are not limited to the following topics The content of stereotypes Social categorization and discrimination based on stereotypes Traditional stereotypes and their consequences The psychological process of social stereotype formation and internalization The mechanisms including neurocognitive mechanisms of stereotypes and its consequences The stereotype neutralizing interventions including neurocognitive intervention strategies towards negative stereotypes The psychological process of stereotypes during Covid 19 pandemic The social group categorization and social cohesion during Covid 19 pandemic The interactions between traditional stereotypes towards social groups seen as inferior in the dominant culture and the short term stereotypes during Covid 19 pandemic The strategies of tackling stereotypes in Covid 19 pandemic
