Historical Foundations of Educational Psychology John A. Glover, Royce R. Ronning, 2013-11-11 This volume represents a beginning effort to compile a history of educational psychology The project began innocuously enough several years ago when we decided to add mon material about the history of educational psychology to the undergraduate course we were teaching What seemed like a simple task became very complex as we searched in vain for a volume dealing with the topic We ended up drawing on various histories of psychology that devoted anywhere from a few paragraphs to several pages to the topic and on a very few articles addressing the issue We were startled frankly by the apparent lack of interest in the history of our field and decided to attempt to compile a history ourselves As is the case with any edited volume the contributing authors deserve credit for its positive features They uniformly made every effort asked of them and taught us much about educational psychology Any errors or omissions are our responsibility alone

Dividing Africa with Policy Lara Hierro, 2020-06-08 This book addresses timely concerns of rising African nationalism and the 2nd decolonisation in Africa The wholesale rejection of all things considered Western is seen to be a result of integrationalism defined as the specific kind of methodology by which EU foreign policy engagement may be interpreted Using complexity theory and panarchy a specific arrangement of interacting complex adaptive systems together with a resilience assessment the EU's foreign policy is shown to be undermining the aims of the premier African institution the AU created to provide unity and security on the continent the EU pursues these objectives in its own image rather than honouring African values This book raises awareness of these issues as well as to widen the

application of the theoretical framework in international relations and politics which is becoming increasingly important in a complex world The aim of this book is to show that the negative isolationism pursued in order to counteract western influence is not the answer and can be avoided through this awareness *Library Journal* ,1966-10 **Monthly List** ,1934
