1. Which is a rule for the table below?

Hours Worked	1	3	4	7
Money Earned	\$7	\$21	\$28	\$ <span style="background-color: black; color: black;">■</span>

- A Add 7  
B Subtract 6  
C Multiply by 7  
D 49

2. Blake uses the rule "subtract 11" for her table. If she starts with 50, what is the next number?

- A 39  
B 49  
C 61  
D 44

3. **Writing to Explain** Look at the table below. Write about how you figure out a rule for the table. Then explain how to use your rule to find the two missing numbers. Finally, make up a pair of numbers that can go at the end of the table.

Earned	\$21	\$27	\$12	\$18	\$33	
Saved	\$7	\$9		\$6		

The rule is

$\times 3$

$$7 \times 3 = 21$$

$$9 \times 3 = 27$$

**Mathematics**, 2004 *Preparing Classroom Teachers to Succeed with Second Language Learners* Thomas

Levine, Elizabeth Howard, David Moss, 2014-07-11 This volume identifies resources models and specific practices for improving teacher preparation for work with second language learners It shows how faculty positioned themselves to learn from resources experts preservice teachers their own practice and each other The teacher education professionals leverage their experience to offer theoretical and practical insights regarding how other faculty could develop their own knowledge improve their courses and understand their influence on the preservice teachers they serve The book addresses challenges others are likely to experience while improving teacher preparation including preservice teacher resistance the challenge of adding to already packed courses the difficulty of recruiting and retaining busy faculty members and the question of how to best frame the larger issues The authors also address options for integrating the work of improving teacher preparation for linguistic diversity into a variety of different teacher education program designs Finally the book demonstrates a data driven approach that makes this work consistent with many institutions mandate to produce research and to collect evidence supporting accreditation Mixed Methods Applications in Action Research Nataliya V. Ivankova, 2015 This text outlines

and explains in detail the necessary steps in designing conducting implementing and reporting an action research study with a solid mixed methods foundation **Instrumentation and Control Systems for Nuclear Power Plants** Mauro Cappelli, 2023-03-21 Instrumentation and Control Systems for Nuclear Power Plants provides the latest innovative research on the design of effective modern I C systems for both existing and newly commissioned plants along with information on system implementation Dr Cappelli and his team of expert contributors cover fundamentals explore the most advanced research in control systems technology and tackle topics such as the human machine interface control room redesign and control modeling The inclusion of codes and standards inspection procedures and regulatory issues ensure that the reader can confidently design their own I C systems and integrate them into existing nuclear sites and projects Covers various viewpoints including theory modeling design and applications of I C systems Includes codes and standards inspection procedures and regulatory issues Combines engineering and physics aspects in one thorough resource presenting human factors modeling and HMI together for the first time Instrumentation and Control Systems for Nuclear Power Plants highlights the key role nuclear energy plays in the transition to a lower carbon energy mix **School Mental Health**

**Services for Adolescents** Judith R. Harrison, Brandon K. Schultz, Steven W. Evans, 2017-06-21 Evidence based mental health services are lacking in many school systems but especially in secondary schools Adolescents who can benefit from school mental health services are those who experience disruptive behavior disorders anxiety depression alcohol drug use sexual or physical abuse chronic health problems crisis situations such as suicidal ideation or attempts natural disasters and exposure to community or family violence that can interfere with academic success Currently one half of students with emotional or

behavioral disorders drop out of school prior to graduation pointing to the need to disseminate proven strategies that strengthen effective secondary school services School Mental Health Services for Adolescents includes a range of expert guidance on implementation of school mental health services in secondary schools The significance of this information cannot be overstated as only 20% of children and adolescents who need such services receive them Schools are a logical venue for service provision because emotional and behavioral problems interfere with academic achievement and a lack of access to mental health services is a major barrier to treatment for youth Authors discuss services that can be implemented by school based professionals and methods of overcoming implementation barriers Chapters cover the history and need for services issues of identification and referral for treatment in schools descriptions of evidence based interventions proposed service delivery models assessment strategies and integration of mental health programs in schools This book will be a valuable resource for researchers trainers of school mental health professionals school administrators and supervisors and school based mental health providers including psychologists counselors and social workers

**Lesson Imaging in Math and Science** Michelle Stephan, David Pugalee, Julie Cline, Chris Cline, 2016-10-26 From respected voices in STEM education comes an innovative lesson planning approach to help turn students into problem solvers lesson imaging In this approach teachers anticipate how chosen activities will unfold in real time what solutions questions and misconceptions students might have and how teachers can promote deeper reasoning When lesson imaging occurs before instruction students achieve lesson objectives more naturally and powerfully A successful STEM unit attends to activities questions technology and passions It also entails a careful detailed image of how each activity will play out in the classroom Lesson Imaging in Math and Science presents teachers with A process of thinking through the structure and implementation of a lesson A pathway to discovering ways to elicit student thinking and foster collaboration An opportunity to become adept at techniques to avoid shutting down the discussion either by prematurely giving or acknowledging the right answer or by casting aside a wrong answer Packed with classroom examples lesson imaging templates and tips on how to start the process this book is sure to help teachers anticipate students ideas and questions and stimulate deeper learning in science math engineering and technology
