**Web Data Mining** Bing Liu, 2011-06-25 Liu has written a comprehensive text on Web mining which consists of two parts. The first part covers the data mining and machine learning foundations where all the essential concepts and algorithms of data mining and machine learning are presented. The second part covers the key topics of Web mining where Web crawling, search, social network analysis, structured data extraction, information integration, opinion mining, and sentiment analysis. Web usage mining, query log mining, computational advertising, and recommender systems are all treated both in breadth and in depth. His book thus brings all the related concepts and algorithms together to form an authoritative and coherent text. The book offers a rich blend of theory and practice. It is suitable for students, researchers, and practitioners interested in Web mining and data mining both as a learning text and as a reference book. Professors can readily use it for classes on data mining, Web mining, and text mining. Additional teaching materials such as lecture slides, datasets, and implemented algorithms are available online.

**MicroFranchising** Jason S. Fairbourne, Stephen W. Gibson, W. Gibb Dyer, 2007. Microfranchising offers a thorough going and impartial analysis of microfranchising covering both practice and theory. The tome's well documented chapters provide an objective overview of the various aspects of microfranchising and outline its main characteristics. This book should be read by all those involved in or concerned by the fight against poverty who are looking for a complete overview of microfranchising. The various actors of the entrepreneurial world will also find much in the volume of interest to them. Academics will find well documented sources complete with operational examples which will help them to present action projects to their students. Microfranchising and more generally micro entrepreneurship represent a vast field of research that will be of great interest to scholars working in the field of entrepreneurship. Fairbourne, Gibson, and Dyer's book not only offers a valuable introduction to micro entrepreneurship but demonstrates the human side of entrepreneurship as a whole. Fr d ric Demerens Entrepreneurship and Innovation Microfranchising has clues and cautions to help create wealth and lift humanity from poverty by energizing communities, families, and individuals to profit making productivity in cooperation with guidance, education, and other resources from established businesses, financial institutions, and philanthropists. Anyone interested in shrinking the bottom of the world's income and wealth pyramid to create real widespread sustainability and all the consequent social and health benefits should read this book. Joseph H Astrachan, Kennesaw State University, US. What do buying honey, renting mobile phones, and fitting prescription glasses have in common? Answer: they are all activities that have expanded in low income countries through microfranchising. This book brings together the ideas of researchers and social entrepreneurs at the heart of a movement to turn microfranchising into a mechanism for sustainable poverty reduction on a scale to match microfinance. A seductive mix of advocacy and realism, analysis, and case study provides readers with the ingredients to make up their own mind about the potential of microfranchising as a development tool. James G Copestake, University of Bath, UK. Poverty remains one of the most

intractable problems in the developing world Microfranchising offers great promise in alleviating poverty by aiding in the foundation of locally owned businesses Microfranchising is defined as small businesses whose start up costs are minimal and whose concepts and operations are easily replicated It involves the systematizing of microenterprises to create and replicate turnkey businesses for the poor With the awarding of the 2006 Nobel Peace Prize attention has increased on this remarkable concept This unique book provides an overview of the need to alleviate poverty and what methods have been used in the past to do so e g microcredit It then introduces the concept of the microfranchise and discusses how this business model can be used in poverty alleviation Different models of microfranchising are reviewed and specific case studies highlighted to show how it has worked in different parts of the world The book concludes with a discussion of the advantages as well as the potential problems and pitfalls that accompany microfranchising This book is a must read for business scholars and economists practitioners and lenders members of NGOs dedicated to poverty alleviation and anyone else who is interested in learning about an innovative business focused tool to alleviate poverty
