Math-Level Indicator

Part of the equation for confident placement decisions

Assess individual students or groups quickly and accurately

For initial assessment of classroom skills, to check progress, or to place a new student, every mathematics classroom needs an easy-to-administer, reliable screener. The Math-Level Indicator from Pearson delivers a norm-referenced, unlimited assessment of students in grades 4–12 for skills based on NCTM content standards and addresses process standards like Problem Solving, Reasoning and Proof, and Communication.

Measure progress with parallel forms

The Math-Level Indicator provides parallel forms, allowing for testing—and retesting—to measure progress and determine intervention and appropriate instruction. Each form includes 60 multiple-choice problems covering a range of basic skills used to test students' abilities in addition, subtraction, multiplication, and division; whole numbers, fractions, decimals, and percents; and numeric and word problems.

Eligible for IDEA (Individuals with Disabilities Education Act) funding for students who may be referred for a special education evaluation.
