round of surveys administered to teachers and principals in the spring of 1999. At this time elementary schools had already administered the Washington Assessment of Student Learning (WASL) for two years: voluntary in 1996-97 and mandatory in 1997-98, and middle schools had administered the test for one year: voluntary in 1997-98. Thus the results describe principals and teachers' early responses to the state education reform. The findings are based on principal and teacher self-reports about actions taken in their districts' schools and classrooms as well as their opinions about the reform.
