**Scania 113 and 143 at Work** Patrick W. Dyer, 2020-11-01 Patrick Dyer's ninth book in the at work series marks a return to Scania to study the 3 series trucks produced between 1988 and 1996 with the emphasis on the 113 and 143 models. In much the same way as these trucks evolved from the previous 2 series and LB 1 series so too does the book taking the story forward from the previous titles covering those ranges. For Scania masters of the modular system and evolutionary engineering processes the 3 series represented the pinnacle of development for designs born decades earlier. Industry recognition of its achievement came early with the range being awarded the Truck of the Year title in 1989. With over 200 photographs provided by the manufacturer and enthusiasts *Scania 113 143 at Work* charts the story of the 3 series through informative text in the popular and familiar style of previous at work titles from the same author. Combat Social Work Charles R. Figley, Jeffrey S. Yarvis, Bruce A. Thyer, 2020-03-26 Social workers have a long proud history of service in most branches of the United States military. The experiences of social workers and other human service professionals of all military ranks have an important, often profound and lasting impact that informs not only their practice within the military but throughout their career long after they have left the combat zone. In exploring the experiences of 13 American combat social workers (CSWs) whose role is among other things providing military mental health services to members in their unit, this book shares lessons from military service through the lens of social work practitioners. The text includes strategies learned about social work practice in a war zone that are highly applicable to other highly stressful contexts e.g. crisis intervention, stress reduction, procedures, suicide prevention, brief psychotherapy and consultation.
