Superseded by 2016 ed ISBN 9780115534379 *World Fishing* ,1985 *The Archaeology of Slavery in Early Medieval Northern Europe* Felix Biermann,Marek Jankowiak,2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three section review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates

Scientific and Technical Aerospace Reports ,1991 **Rethinking Nordic Courts** Laura Ervo,Pia Letto-Vanamo,Anna Nylund,2021-08-01 This open access book examines whether a distinctly Nordic procedural or court culture exists and what the hallmarks of that culture are Do Nordic courts and court proceedings share a distinct set of ideas and values that in combination constitute the core of a regional legal culture How do Europeanisation privatisation diversification and digitisation influence courts and court proceedings in the Nordic countries The book traces the genesis and formation of Nordic courts and justice systems to provide a richer comprehension of contemporary Nordic legal culture and an understanding of the relationship between legal cultural stability and change In answering these questions the book

provides models for conceptualising procedural culture Nordic procedural culture has partly developed organically and is partly also the product of deliberate efforts to maintain a certain level of alignment between the Nordic countries Studying Nordic cooperation enables us to gain a deeper understanding of current regional European and global harmonisation processes within procedural law The influx of supranational European law increased use of alternative dispute resolution and growth in regulation density that produces a conflict between specialisation and coherence have tangible impact on the role of courts in a democratic society the form of court proceedings and court structures This book examines whether and why some trends exert more tangible or perhaps simply more perceptible influence on procedural culture than others
