[Ramsey Campbell](#) Gary William Crawford, 2013-12-05 As the author of more than two dozen novels and hundreds of short stories as well as essays reviews and columns Ramsey Campbell is one of the most prolific writers in the field of horror literature The consistently high level of quality in his work has resulted in every major award that weird fiction has to offer including the Grand Master Award of the World Horror Convention the Lifetime Achievement Award of the Horror Writers Association and the Living Legend Award of the International Horror Guild Strangely though relatively little criticism has been written about Campbell

In Ramsey Campbell Critical Essays on the Modern Master of Horror Gary William Crawford has assembled a collection of articles that examine the work of one of weird fiction's most revered writers. These essays look at a number of elements that characterize Campbell's stories and novels including comparisons to H.P. Lovecraft who was an early inspiration. Campbell's modern variations of Gothic fiction, his concept of evil religious subtext in his fiction, and how adversities Campbell has faced have shaped his life and his work. In all these essays pay homage to Campbell's painstaking craftsmanship and show that there is much to be mined in his fiction. Because Campbell is so important in the genre of horror literature, this book serves as a much needed affirmation of his work. It will be of interest to scholars of supernatural fiction in general but also to devoted fans of this major figure in weird fiction.

The Sex Doll Anthony Ferguson, 2014-01-10 This scholarly study of the centuries long history of fornicatory dolls examines the enduring obsession with creating an idealized silent female sexual object and the manifestations of this desire through the ages in mythology, literature, art, philosophy, and science. This particular sexual impulse has been expressed in a great variety of forms such as statues, mannequins, sex dolls, and gynoids/robots. In particular, this study focuses on the evolution of the sex doll through its original incarnation as a sack cloth effigy through the marketing of inflatable dolls to the current elaborate cyber technology figures in an attempt to discover the hidden drives and desires which fuel this ongoing fantasy of creating a perfect powerless silent partner.

The Modern Weird Tale S.T. Joshi, 2015-11-16 This is a critical study of many of the leading writers of horror and supernatural fiction since World War II. The primary purpose is to establish a canon of weird literature and to distinguish the genuinely meritorious writers of the past fifty years from those who have obtained merely transient popular renown. Accordingly, the author regards the complex, subtle work of Shirley Jackson, Ramsey Campbell, Robert Aickman, T.E.D. Klein, and Thomas Ligotti as considerably superior to the best sellers of Stephen King, Clive Barker, Peter Straub, and Anne Rice. Other writers such as William Peter Blatty, Thomas Tryon, Robert Bloch, and Thomas Harris are also discussed. Taken as a whole, the volume represents a pioneering attempt to chart the development of weird fiction over the past half century.

A Feeling of Wrongness Joseph Packer, Ethan Stoneman, 2018-11-01 In *A Feeling of Wrongness* Joseph Packer and Ethan Stoneman confront the rhetorical challenge inherent in the concept of pessimism by analyzing how it is represented in an eclectic range of texts on the fringes of popular culture from adult animated cartoons to speculative fiction Packer and Stoneman explore how narratives such as *True Detective* *Rick and Morty* *Final Fantasy VII* Lovecraftian weird fiction and the pop ideology of transhumanism are better suited to communicate pessimistic affect to their fans than most carefully argued philosophical treatises and polemics They show how these popular nondiscursive texts successfully circumvent the typical defenses against pessimism identified by Peter Wessel Zapffe as distraction isolation anchoring and sublimation They twist genres upend common tropes and disturb conventional narrative structures in a way that catches their audience off guard resulting in belief without cognition a more rhetorically effective form of pessimism than philosophical pessimism While philosophers and polemicists argue for pessimism in accord with the inherently optimistic structures of expressive thought or rhetoric Packer and Stoneman show how popular texts are able to communicate their pessimism in ways that are paradoxically freed from the restrictive tools of optimism *A Feeling of Wrongness* thus presents uncharted rhetorical possibilities for narrative making visible the rhetorical efficacy of alternate ways and means of persuasion
