Ager, 2022-04-27 Magic was a fundamental part of the Greco Roman world Curses erotic spells healing charms divination and other supernatural methods of trying to change the universe were everyday methods of coping with the difficulties of life in antiquity While ancient magic is most often studied through texts like surviving Greco Egyptian spellbooks and artifacts like lead curse tablets for a Greek or Roman magician a ritual

was a rich sensual experience full of unusual tastes smells textures and sounds bright colors and sensations like fasting and sleeplessness Greco Roman magical rituals were particularly dominated by the sense of smell both fragrant smells and foul odors Ritual practitioners surrounded themselves with clouds of fragrant incense and perfume to create a sweet and inviting atmosphere for contact with the divine and to alter their own perceptions they also used odors as an instrumental weapon to attack enemies and command the gods Elsewhere odiferous herbs were used equally as medical cures and magical ingredients In literature scent and magic became intertwined as metaphors with fragrant spells representing the dangers of sensual perfumes and conversely smells acting as a visceral way of envisioning the mysterious action of magic The Scent of Ancient Magic explores the complex interconnection of scent and magic in the Greco Roman world between 800 BCE and CE 600 drawing on ancient literature and the modern study of the senses to examine the sensory depth and richness of ancient magic Author Britta K Ager looks at how ancient magicians used scents as part of their spells to put themselves in the right mindset for an encounter with a god or to attack their enemies through scent Ager also examines the magicians who appear in ancient fiction like Medea and Circe and the more metaphorical ways in which their spells are confused with perfumes and herbs This book brings together recent scholarship on ancient magic from classical studies and on scent from the interdisciplinary field of sensory studies in order to examine how practicing ancient magicians used scents for ritual purposes how scent and magic were conceptually related in ancient literature and culture and how the assumption that strong scents convey powerful effects of various sorts was also found in related areas like ancient medical practices and normative religious ritual

Best Tips And Tricks For Soap Making Sandy Chase,2013-09-24 It s interesting to note that there have been many healthy human populations throughout our history even long before the advent of antibacterial soap In fact the collective fascination with adding chemical ingredients to bar and liquid soaps in order to help fight infections only began in recent decades Since then much evidence has emerged to suggest that antibacterial soaps don t clean us any more thoroughly than their old fashioned predecessors do What s more they may pose health concerns both on personal and environmental levels This is why Sandy Chase decided to write Best Tips and Tricks for Soap Making The most disturbing concern is that these new kinds of cleansers may actually contribute to a general sanitation problem by promoting the development of antibiotic resistant bacteria Antibacterial soaps don t just kill disease causing bacteria They kill every kind of bacteria that is susceptible to them If resistant bacteria were then to form they could easily dominate their surrounding environment be it a household or larger ecosystem due to a lack of competition Our race survived for eons and produced many healthy men and women without the aid of our new bacteria fighting products Babies even need a certain level of exposure to germs in order for their immune systems to develop properly Evidence suggests that we may be compromising

our own adult systems as well through our increasing reliance upon antibacterial soaps In a way this reliance reveals a certain distrust of our environment which is seen as hostile and our bodies which are seen as overly vulnerable We may need to start trusting ourselves and the kinds of natural products that kept us clean for so long in the past once again
